**2, 4, 6, Eat** Stephanie O'Dea,2020-07-21 When I first heard of intermittent fasting through a Pinterest post in 2017 I assumed that it too was going to be a waste of my time and that it was pretty much just a starvation diet I ve done those in the past and was miserable every step of the way Also From my own experience and those of my friends starvation diets didn t work That said I am and always have been a sucker for the next new and shiny diet plan so I gave it a try for 3 days PS this is usually how I do things I go all on board for 3 days and then I crash and burn Anyhow I didn t do a lick of research before diving straight in with a 4 hour eating window that I decided should only be between 12 noon and 4 pm I decided that I was going to have coffee with a bit of spackle powdered creamer in it for breakfast and chicken broth for lunch Any time I felt hungry through the day and it was ALL DAY hunger I would have a cup of Bengal Spice cinnamon flavored tea or a mug of chicken broth In my eating window I would eat a healthy dinner of about 1000 calories I didn t allow myself to have any sugar or anything fun to eat I white knuckled it through my 3 days I now know what I did wrong and how if you do it correctly intermittent fasting is actually pretty darn easy to stick with in the long term I ve now been at it for over a year and the stubborn 10 pounds that have plagued me my entire adult life have slowly disappeared and stayed away I get it that this sounds way too good to be true and you re likely to be skeptical If you want to get into more of the science y stuff of how this all works without simply being a starvation diet then I urge you to do some research on your own If you are still with me this is how you do it
