Transforming the Human Service Workplace Karen Hopkins, Bowen McBeath, 2025-08-13 This book guides human service organizations in their transformative efforts to create greater workforce inclusion and well-being through a range of forward-thinking practices. Promoting employee mental health, providing personal and professional wellness coaching, engaging in multisolving strategies, identifying supports for individuals as they enhance organizational climate, building meaningful evaluative practices with a focus on social justice, elevating the financial well-being of lower-wage workers, employing a trauma-informed model of leadership, and preparing graduate students with online and in-person pedagogies for inclusive supervision and leadership. Each chapter provides a unique voice and view into current needs and practices that human service managers grapple with in addressing improving and even transforming workforce wellbeing, inclusion, and leadership development. These thoughtful perspectives and proposed actions will prove inspiring in the daunting yet incredibly important work carried out every day by nonprofit and public human service managers and in the professional discourses of human service leaders, researchers, and educators. It will be essential to students and researchers in social work, human services, and related fields. It will also be beneficial for human service professionals, nonprofit and public sector managers, educators, and scholars.
