Operations Management For Mbbs Solutions:

Operations Management for MBAs Jack R. Meredith, Scott M. Shafer, 1999 Focus on the Needs of the MBA Student
Meredith and Shafer introduce the key topics of operations management focusing on the needs of MBA students
Contemporary concepts of relevance to MBA students such as the balanced scorecard core competency mass customization
benchmarking business process design and enterprise resource planning SAP are also included More importantly the book is
written with the marketing finance and other majors in mind emphasizing how a basic understanding of operations is
important to all career paths Operations management for MBAs is also specifically designed to allow the professor to tailor
their course around the students needs The streamlined coverage of concepts provides the instructor with the opportunity to
integrate additional materials into the course such as cases and readings further enhancing student learning Furthermore
having a text that solidly covers just the fundamental concepts provides students with the background needed to integrate
these important supplementary materials Key Features of the Text Focus is placed on the needs and skills of MBA students
The material is conceptual and strategic in nature making it more relevant and interesting to experienced students
Contemporary real world topics such as revenue management service defections and supply chain management address
students current needs A condensed and inexpensive treatment of the material allows the instructor to economically add
supplementary material Quantitative material is presented only when it provides a better understanding of key concepts
