Facial Plastic & Reconstructive Surgery Sami P Moubayed, Moustafa W Mourad, Antoni Riera March, 2019-06-30 This book is a comprehensive guide to facial plastic and reconstructive surgery for surgeons and trainees. Divided into five sections, the text begins with an overview of basic techniques, analgesia and conscious sedation, and legal and psychosocial issues. The next section covers rhinoplasty both aesthetic and medical, and section three discusses various aesthetic facial surgery procedures including browplasty, liposuction, and scar revision. The following section examines non-surgical procedures such as chemical peels, Botox, and fillers, and the book concludes with a section on reconstructive surgery including Mohs surgery, local flaps, and grafts, cleft lip and palate, and craniomaxillofacial trauma. A question bank of more than 1000 questions and answers is included to assist revision and exam preparation. Authored by recognised experts from Canada and the USA, chapters feature multiple images and diagrams as well as key points boxes for quick reference. Key points: Comprehensive guide to facial plastic and reconstructive surgery. Covers basic techniques, rhinoplasty, aesthetic facial surgery, non-surgical procedures, and reconstructive surgery. Features a question bank of more than 1000 questions and answers. Recognised author team from Canada and USA.

Operative Facial Plastic and Reconstructive Surgery

, 2016-07-31 Operative Facial Plastic and Reconstructive Surgery presents an extensive explanation of surgeries and procedures within cosmetic surgery and reconstruction. Each major surgery is given its own section so that it functions as a practical resource for the busy surgeon. Written by experts in the field, this text provides accurate up-to-date information on various surgeries and procedures. It is not merely meant to describe surgical procedures but to serve as a thorough teaching manual for training surgeons as well as established surgeons. By balancing theoretical and technical aspects, it acts as a hybrid of traditional textbooks and surgical atlases and is unlike any other text in this field. Accompanying the book is a related DVD which allows for a clearer visual understanding of the included procedures. Facial plastic surgeons as well as otolaryngologists, dermatologic surgeons, and OMFS surgeons will find this book incredibly valuable. This text is also a great resource for surgeons who are interested in widening their practice to include facial plastic surgery.

Facial Plastic and Reconstructive Surgery Hade Vuyk, 2012-12-11 Facial Plastic and Reconstructive Surgery is a comprehensive and practical guide to performing facial surgical procedures and contains a balance of aesthetic and reconstructive procedures that mirrors typical European practice. It has arisen as an initiative of the European Academy of Facial Plastic Surgery (EAFPS) and in accordance with this status is a comprehensive book that gives a complete update on the speciality as it is practised in Europe. The contributors have many years of clinical practice as well as research experience in facial plastic and reconstructive surgery. The book's practical 'how to' style is amply supported with excellent line illustrations and colour photographs and serves as a comprehensive reference for surgeons in clinical practice as well as in training. Each chapter is structured within a uniform framework to increase the accessibility of the text and in this way improves the book's utility as a

McCurdy, Samuel M. Lam,2011-01-01 The demand for cosmetic surgery among Asians has grown dramatically At the same time the aesthetics of this surgery have evolved as well from previous more radical procedures to westernize the face to a relatively conservative approach that improves facial balance and harmony while maintaining ethnic integrity This lavishly

illustrated book presents state of the art surgical techniques for the Asian face. It covers a plethora of procedures including suture based partial incision, full incision and revision double eyelid creation with various epicanthoplasty strategies, alloplast and autogenous augmentation rhinoplasty, malar and mandibular reduction, dimple fabrication and more. The authors are highly experienced practitioners who offer insights into the cultural and psychological factors that can help Western surgeons better understand the Asian patient. Plus the book includes two full length narrated DVDs with step by step demonstrations of double eyelid creation, nasal implant selection, augmentation rhinoplasty, alar base reduction and facial rejuvenative procedures. For all plastic and cosmetic surgeons working with Asian patients, this book is both an essential reference and a practical guide covering all the latest procedures not previously available from one source.
