The Opium Eaters Stephen Carver, 2021-01-30 When the brilliant Oxford drop-out and freelance journalist Thomas De Quincey published his seminal article *Confessions of an English Opium Eater* in 1821 he was following the old adage write about what you know Writing in coffee shops to avoid debt collectors the 36-year-old proto-Romantic had been addicted to opium for almost 20 years If produced today his *Confessions* would read more like Irvine Welsh's *Trainspotting* with illicit drug deals the constant threat of arrest and the whole miserable sordid world of the outcast addict demonized by politicians and mass media But in the 19th century laudanum a tincture of opium dissolved in alcohol was as ubiquitous and legal as aspirin is today With the notable exception of William Wordsworth all the English Romantics and many Victorian artists and writers were users In the wider political context the opium trade was the mainstay of the East India Company and therefore at the heart of the British economy to the point that the Empire fought two wars with China the major buyer when its rulers tried to outlaw the trade In *The Opium Eaters* cultural historian Dr Stephen Carver examines the impact of opium abuse on the literature and politics of the 19th century from Lord Byron sipping laudanum out of a crystal decanter to the opium dens of London's East End He tells the story of the writers the psychonauts of their age from De

Quincey and the Romantics to the late Victorians and early Modernists as well as looking at literary works which used opium as a major plot device such as *The Moonstone* *The Tenant of Wildfell Hall* *Uncle Silas* and *The Mystery of Edwin Drood* In parallel he covers the history of the scientific development of opium into morphine and heroin changing societal views and drug related crime
