FINDING REAGAN Kent Strobl, 2025-06-29 There are many Ronald Reagan biographies and novels pertaining to the life and administration of the former president. However, there are very few if any that look at a handful of his positions and policies while relating them to the year 2024, almost four decades since former President Reagan was in office. Just like how Reagan himself would do while in office, analogies will be made that include the positions, actions, and wisdom of other former presidents including Abraham Lincoln, George Washington, Thomas Jefferson, James Madison, Dwight D. Eisenhower, John F. Kennedy, Franklin Delano Roosevelt, Theodore Roosevelt, and Calvin Coolidge. Not only will the reader explore how Reagan dealt with domestic and foreign affairs including tax reform, welfare, government spending, civil rights, dealing with the Soviet Union and Middle East, as well as other areas of the world, the reader will also see just how similar the world is to the 1980s and how solutions then can be used now along with new ideas that build off of what worked for The Gipper. Along the way, the reader will see how a private citizen that can be considered as Gen Z found his way into politics after not really being interested in it in the first 25 years of his life, demonstrating how if you do not do the research on your own, you can fall victim to what the mainstream pundits are sharing.
