## **Party Transformations In European Democracies:**

Party Transformations in European Democracies André Krouwel, 2012-12-01 Political parties regularly change and adapt in response to ever changing circumstances Until now these changes have frequently prompted both scholars and the media to suggest a whole new type of political party and over time the number of models and types has proliferated to the point of confusion contradiction and a loss of explanatory power In this sophisticated yet accessible study Andr Krouwel rejects this m range of models as inadequate He utilizes a wide range of data sources to analyze the ideological organizational and electoral change undergone by more than one hundred European parties in fifteen different countries from Scandinavia to the Iberian Peninsula between 1945 and 2010 The result is one of the most comprehensive empirically grounded studies to date of the genesis development and transformation of political parties in advanced democratic states

**Party Competition in Emerging Democracies** Jack Bielasiak, 2003

**Democratic Governance and European Integration** Ronald Holzhaacker, Erik Albæk, 2007 As the power and scope of the European Union moves further beyond traditional forms of international cooperation between sovereign states it is important to analyse how these developments are impacting upon national institutions and processes of democratic representation and legitimacy in the member countries The authors in this book identify four core processes of democratic governance present in any democratic political system that link societal and state processes of decision making opinion formation interest intermediation national executive decision

making and national parliamentary scrutiny From a normative perspective they discuss what impacts this process of Europeanization has on democracy in the evolving system They conclude that more changes are seen within the state centric than in the societal centred processes of democracy thus the public seems to have been left behind in the process of constructing Europe The empirical research and normative discussion presented in this book are designed to further our knowledge concerning the Europeanization of social and state processes of democracy and to contribute to the continuing dialogue on democracy in the European Union This book will be of great interest to academics and researchers of political science public policy and international relations as well as those interested in European studies and comparative politics
