Reading Matters Ulrich Marzolph, 2023 The present book is a special gift for a special colleague and friend Defined as an Unfestschrift it gives colleagues students and friends of Regina Bendix an opportunity to express their esteem for Regina's inspiration cooperation leadership and friendship in an adequate and lasting manner The title of the present book Reading Matters is as close as possible to an English equivalent of the beautiful German double entendre Erlesenes meaning both something read a reading and something exquisite Presenting matters for reading the Unfestschrift unites short contributions about readings that mattered in some way or another for the contributors readings that had an impact on their understanding of whatever they were at some time or presently are interested in The term readings is understood widely Since most of the invited contributors are academics the term implies in the first place readings of an academic or scholarly nature In a wider notion however readings also refer to any other piece of literature the perception of a piece of art a painting a sculpture a performance listening to music appreciating a folkloric performance or a fieldwork experience or just anything else whose reading or individual perception has been meaningful for the contributors in different ways Contrary to a strictly scholarly treatment of a given topic in which the author often disappears behind the subject the presentations unveil and highlight the contributor's personal involvement and thus a

dimension of crucial importance for ethnographers such as the dedicatee **Yesterday** Tobias Becker,2023-12-05 Nostalgia supposedly is the sphere of the sentimentalist But also and most definitely it is a force in the creation of the present and future and thus worth careful thought Yesterday argues that nostalgia s critics defend an idea of progress as naive as the longing they denounce while conflating nostalgia itself with historical whitewashing *Geographers* Elizabeth Baigent,André Reyes Novaes,2021-09-09 *Geographers* is an annual collection of studies on individuals who have made major contributions to the development of geography and geographical thought Volume 39 celebrates the contribution of Hugh Clout to the discipline The thirty ninth volume of *Geographers Biobibliographical Studies* adds significantly to the corpus of scholarship on geography s multiple histories and biographies each chapter includes a select biography of its chosen figure and a brief chronology of their work In this edition Hugh Clout memorialises the forgotten those who had made an important local contribution which went unnoticed on the national stage or those who continued along the intellectual path blazed by one of the discipline s major figures and thus helped to secure the reputation of that major figure In this collection of essays Clout draws from used literary works reviews in the scholarly and other press obituaries in newspapers and geographical publications funeral orations and papers in a large number of archives Each study includes a select bibliography and a brief chronology The work includes a general index and a cumulative index of geographers listed in volumes published to date As with other volumes in the series the purpose is not to evaluate but to present individuals and their contributions as they really were and in the context of their time Published under the auspices of the International Geographical Union **The Cyclopedic Review of Current History** ,1898 *Cyclopedic Review of Current History* Alfred Sidney Johnson,1898
