**Leisure Activities in Context** Robert A. Stebbins, 2017-07-12 There have been many analyses of leisure drawing on the social historical cultural temporal and geographical contexts in which acts of leisure are pursued Yet these studies lack a theoretical framework that can explain how leisure studies interact in various social contexts cultural temporal or geographical or as Robert A Stebbins conceptualizes it at levels of society Here Stebbins explores leisure studies at society's micro meso and macro levels He considers all three as they manifest themselves in the everyday pursuit of leisure while focusing on the heretofore neglected middle which he calls the meso side of life Stebbins not only draws these perspectives together but does something no one else has he focuses on the big picture of leisure *Leisure Activities in Context* examines the entire micro macro agency structure dimension using theory and research from leisure studies and the sociology of leisure as the vehicles to accomplish this This book will be a useful theoretical sourcebook on the study of leisure because it provides a blueprint of issues that scholars and students can use to draw deeper meaning from their own studies and a framework for future research

international figures in modern leisure studies the book examines key philosophical and theoretical debates around leisure with reference to concepts such as happiness enjoyment and quality of life as well as the most interesting contemporary themes in leisure studies from youth leisure and dark leisure to technology and adventure Understanding changes in leisure helps us to better understand changes in wider society Contemporary Perspectives in Leisure is a perfect companion to any course in leisure studies and useful reading for any student or scholar working in sociology cultural studies recreation tourism sport or social psychology *Sport and Leisure in Contemporary Society* Stanley Parker, Leisure Research Group, British Sociological Association. Sociology of Sport and Games Group, 1978 **Leisure and Culture C.**

Rojek, 1999-11-01 This is the latest book on leisure from one of the leading figures in the field of leisure studies It makes a major contribution in considering leisure as a primary aspect of cultural life Rojek treats modern culture as performative That is there are strong pressures on us to keep busy even if we are busy doing nothing Leisure is analysed as a status placing activity The implications of the post work thesis for leisure the role of inequality in leisure practice are explored in interesting and novel ways Perhaps the most notable feature of the book is the discussion of the abnormal forms of leisure and the attack on the medicalized model of society This book will be required reading for anyone interested in leisure studies and cultural studies **The Idea of Leisure** Robert A. Stebbins, 2011-12-31 A range of thinkers in philosophy religion and the social sciences have argued that thanks to science technology and the organization of society the human condition has improved and will continue to do so People are becoming progressively happier and enjoying an ever improving quality of life they say mostly because they are putting their skills and reason to work The Idea of Leisure is based on the assumption that leisure also fits into the social order and it provides a singular vector by which to measure progress even though it is rarely mentioned in writings about the idea of progress Robert A Stebbins believes that leisure fosters positive development in both the individual and community Progress through free time activity may sometimes be hard to grasp because of the all too common manifestations of deviant behavior from schoolyard bullying to date rape Despite these examples the vast majority of leisure activities often have profound positive consequences for participants and society Stebbins makes a solid case for linking leisure with progress Although leisure has huge importance for humanity observations about the idea of leisure as part of the idea of progress have been sporadic It is no accident that the World Leisure Organization promotes the motto Leisure integral to social cultural and economic development Nor is it an accident that Article 24 of the United Nations Universal Declaration of Human Rights declares that Everyone has the right to rest and leisure including reasonable limitation of working hours and periodic holidays with pay For whole nations to find satisfaction and self fulfillment based on leisure would be a true sign of progress Stebbins book offers original insight into this basic human requirement
