Cornwell B/L Mixed a S/Wx54 #1 Off Patricia Cornwell,2000-05-18 **Autopsy** Patricia Cornwell,2021-11-30 New York Times Bestseller In this relaunch of the electrifying landmark 1 bestselling thriller series chief medical examiner Dr Kay Scarpetta hunts those responsible for two wildly divergent and chilling murders Forensic pathologist Dr Kay Scarpetta has come almost full circle returning to Virginia

the state where she launched her storied career as the chief medical examiner. Finding herself the new girl in town once again after being away for many years, she's inherited both an overbearing secretary and a legacy of neglect and potential corruption. She and her husband Benton Wesley, now a forensic psychologist with the U.S. Secret Service, have relocated to Old Town Alexandria where she's headquartered five miles from the Pentagon in a post-pandemic world that's been torn apart by civil and political unrest. After just weeks on the job, she's called to a scene by railroad tracks: a woman's body has been shockingly displayed, her throat cut down to the spine, and as Scarpetta begins to follow the trail, it leads unnervingly close to her own historic neighborhood. At the same time, a catastrophe occurs in a top-secret laboratory in outer space, endangering at least two scientists aboard. Appointed to the highly classified Doomsday Commission that specializes in sensitive national security cases, Scarpetta is summoned to the White House and tasked with finding out exactly what happened. But even as she remotely works the first potential crime scene in space, an apparent serial killer strikes again, very close to home. This latest novel in the groundbreaking Kay Scarpetta series captivates readers with the shocking twists, high-wire tension, and forensic detail that Patricia Cornwell is famous for, proving once again why she's the world's 1 best-selling crime writer.

True Crime Patricia Cornwell, 2026-05-05 1 New York Times best-selling author Patricia Cornwell finally tells the story that rivals all of the works that precede it. Her own Patricia Cornwell is best known for her international best-selling thriller series about forensic pathologist Dr. Kay Scarpetta. Every story comes from somewhere, and Scarpetta's began when Patricia Cornwell embedded herself in a morgue. In this achingly honest memoir, Cornwell excavates her own life, detailing her traumatic childhood, being raised by neglectful parents, her father abandoning the young family on Christmas day, her mother being institutionalized twice, an abusive foster family, and developing a parental relationship with evangelist Billy Graham. Her wife, Ruth Cornwell, depicts a harrowing hospitalization and near-death car accident. She unflinchingly shares overcoming obstacles that later gave her the ambition to become an award-winning police reporter. From there, it was research in a medical examiner's office that would turn into a full-time job. She would become a forensic expert and worldwide publishing phenomenon. Cornwell leaves no stone unturned in this deeply candid account of her life, offering inspiring insight into what made her into the international sensation she is today.

As Scarpetta follows the trail, it leads unnervingly close to her own neighborhood. At the same time, two scientists are found dead in a top-secret laboratory in outer space.
