Department. Office of the Comptroller,1990    Philippines Asian Development Bank,2013-12-01 Proper public procurement practices directly reflect good governance Transparent and effective procurement practices minimize expenditure and create opportunity Procurement is an enormous component in the process by which governments build infrastructure such as schools and hospitals It involves the management of significant amounts of money and is therefore often the cause for allegations of corruption and government inefficiency The difference between getting public procurement right and doing it wrong has the potential to be either highly rewarding or highly damaging In some nations reforms implemented to improve the efficiency of public procurement have resulted in savings of 1% of a country's gross domestic product One can see why public procurement is so significant to the development of a country and its people    *Neuroscience* Anne Alexandrov,2009
