### **Same-sex relationships and parenting 'after equality'**

*Rosie Harding*

---

UK artist Edward Monkton<sup>1</sup> has a range of philosophical cartoons, 'the INTERESTING thoughts of EDWARD MONKTON', commonly sold as greetings cards, mugs, coasters and other such products. One of his cartoons is called 'The LAW of STRAIGHTNESS', with a picture of pencils and the caption, 'my pencils are STRAIGHT'; of socks – 'my socks are STRAIGHT'; a pillow – 'my pillow is STRAIGHT'; and some chips – 'my chips are STRAIGHT'. Below this are the words:

EVERYTHING must be STRAIGHT or else the World will EXPLODE\*

\*Those who do not believe in the Law of Straightrness will not BE SAVED

As with any artistic work, there are a number of different possible interpretations of this cartoon, and perhaps the most immediately obvious is that it is referring to tidiness and, particularly, an obsessive-compulsive approach to tidiness. However, this cartoon also raises complex and intertwined questions regarding the nature of the regulation of sexuality in contemporary Western societies. One way to frame these questions is to ask: What does it mean to think about 'the LAW of STRAIGHTNESS'? There are two aspects to this: (1) the LAW and (2) STRAIGHTNESS. In using the term 'the law', we implicitly accept a monist or singular idea of law – that there is something inherently coherent, and therefore privileged, about this singular entity that is described as law. When combining this with a concept of 'straightness', we are led to the concept of heteronormativity: 'the institutions, structures of understanding, and practical orientations that make heterosexuality seem not only coherent – that is, organized as a sexuality – but also privileged' (Berlant and Warner 2000: 312).

In this chapter, I seek to explore the ways that the 'law of straightness' is still manifest in contemporary English family law, even 'after equality' and taking into consideration the recent legal shifts in the ways that lesbian and gay lives are recognized and regulated in English law. I argue that, by exploring the multiple facets of legal regulation of the family, we can gain a greater understanding of both 'law' and 'heteronormativity'. In so doing,

*Children are Everywhere* Meghana Joshi, 2023-11-10 *Children are Everywhere* engages with how demographic anxieties and reproductive regimes emerge as forms of social inclusion and exclusion in a low fertility Western European context This book explores everyday experiences of parenting and childlessness of ethnic Germans in Berlin who came of age around the fall of the Berlin Wall and brings them into conversation with theories on parenting waithood non biological intimacies and masculinities This is the first ethnographic work by a South Asian author on demographic anxieties and reproduction in Germany and reverses the anthropological gaze to study Europe as the Other *Family Law* Sonia Harris-Short, Joanna Miles, Rob George, Robert Henry George, 2015 *Family Law Text Cases and Materials* presents everything the undergraduate student needs in one volume The authors offer a detailed and authoritative exposition of family law illustrated by materials carefully selected from a wide range of sources

**Ageing, Gender and Family Law** Beverley Clough, Jonathan Herring, 2018-03-19 This book explores the intersecting issues relating the phenomenon of ageing to gender and family law The latter has tended to focus mainly on family life in young and middle age and indeed the issues of childhood and parenting are key in many family law texts Family life for older members has then been largely neglected addressing this neglect the current volume explores how the issues which might be important for younger people are not necessarily the same as those for older people The significance of family the nature of family life and the understanding of self in terms of one's relationships tend to change over the life course For example the state may play an increasing role in the lives of older people as access to services involvement in work and the community the ability to live independently and to form or maintain caring relationships are all impacted by law and policy This collection therefore challenges the standard models of family life and family law that have been developed within a child parent centred paradigm and which may require rethinking in the turn to family life in old age Interdisciplinary in its scope and orientation this book will appeal not just to academic family lawyers and students interested in issues around family law ageing gender and care but also to sociologists and ethicists working in these areas **Same-Sex Relationships, Law and Social Change** Frances Hamilton, Guido Noto La

Diega, 2020-01-15 This edited collection provides a forum for rigorous analysis of the necessity for both legal and social change with regard to regulation of same sex relationships and rainbow families the status of civil partnership as a concept and the lived reality of equality for LGBTQ persons Twenty eight jurisdictions worldwide have now legalised same sex marriage and many others some level of civil partnership In contrast other jurisdictions refuse to recognise or even criminalise same sex relationships At a Council of Europe level there is no requirement for contracting states to legalise same sex marriage Whilst the Court of Justice of the European Union now requires contracting states to recognise same sex marriages for the purpose of free movement and residency rights unlike the US Supreme Court it does not require EU Member States to legalise same sex marriage Law and Sociology scholars from five key jurisdictions England and Wales Italy

Australia Canada and the Republic of Ireland examine the role of the Council of Europe European Union and further international regimes A balanced approach between the competing views of critically analytical rights based theorists and queer and feminist theorists interrogates the current international consensus in this fast moving area The incrementalist theory whilst offering a methodology for future advances continues to be critiqued All contributions from differing perspectives expose that even for those jurisdictions who have legalised same sex marriage still further and continuous work needs to be done The book will be of interest to students and scholars in the field of human rights family and marriage law and gender studies

**Paradoxes of Neoliberalism** Elizabeth Bernstein, Janet R Jakobsen, 2021-12-24 From the rise of far right regimes to the tumult of the COVID 19 pandemic recent years have brought global upheaval as well as the sedimentation of longstanding social inequalities Analyzing the complexities of the current political moment in different geographic regions this book addresses the paradoxical persistence of neoliberal policies and practices in order to ground the pursuit of a more just world Engaging theories of decoloniality racial capitalism queer materialism and social reproduction this book demonstrates the centrality of sexual politics to neoliberalism including both social relations and statecraft Drawing on ethnographic case studies the authors show that gender and sexuality may be the site for policies like those pertaining to sex trafficking which bundle together economics and changes to the structure of the state In other instances sexual politics are crucial components of policies on issues ranging from the growth of financial services to migration Tracing the role of sexual politics across different localities and through different political domains this book delineates the paradoxical assemblage that makes up contemporary neoliberal hegemony In addition to exploring contemporary social relations of neoliberal governance exploitation domination and exclusion the authors also consider gender and sexuality as forces that have shaped myriad forms of community based activism and resistance including local efforts to pursue new forms of social change By tracing neoliberal paradoxes across global sites the book delineates the multiple dimensions of economic and cultural restructuring that have characterized neoliberal regimes and emergent activist responses to them This innovative analysis of the relationship between gender justice and political economy will appeal to interdisciplinary scholars in social and cultural studies legal and political theorists and the wide range of readers who are concerned with contemporary questions of social justice
