*Creative Communities* Janet McDonald, Robert Mason, 2015 This is the first major collection to reimagine and analyze the role of the creative arts in building resilient and inclusive regional communities. *The Social Impact of Creative Arts in Australian Communities* Sandra Gattenhof, Donna Hancox, Helen Klaebe, Sasha Mackay, 2021-11-12 This book brings together discussions about Australian arts policy and funding outcomes of arts engagement in terms of social inclusion, well-being, and education. It presents exemplars of creative programs or case studies that build capacity and lasting impact for communities in urban and regional Australia. This book describes the impact of the arts using narrative case studies. Through this, it develops conceptual understanding and frameworks that can be used to dynamically assess the value and impact of arts engagement across the three types of cultural value: intrinsic value, instrumental value, and institutional value. It focuses on how arts engagement creates supports and extends factors such as well-being, social inclusion, and educational achievement. This book provides an innovative examination of the evidence from Australian projects depicting the impact of the arts on a range of indicators and sectors

**Creativity from Suburban Nowheres** Ilja Van Damme, Ruth McManus, Michiel Dehaene, 2023-07-26 Looking at suburbs as places of creativity gives rise to novel and thought-provoking narratives that typically run counter to the idea that suburbs are sites of ordinary, mundane, and everyday practices. Far from being geographies of nowhere, dull, materialistic, and monotone suburbs are unpacked as being heterogeneous and historically layered places of living, work, and creation. Situating creativity in place and time, *Creativity from Suburban Nowheres* displaces mainstream understandings of creativity and widespread stereotypes commonly associated with the suburbs. Contributors explore the particular forms of creativity that suburbs elicit both in the process of their making, materialization, and community construction and in the myriad ways in which suburbs are inhabited and experienced. They highlight accounts of suburbs as places that give people the space and latitude to shape individual and collective identities through creative practices at odds with mainstream culture and often remote from the classic agglomeration assets associated with inner cities. Anchored in historical and geographical research, this volume highlights how and in what forms creativity should be understood in the suburbs, why and when creativity can be found, and how the notion of suburban creativity overthrows ingrained and dominant normative viewpoints. Rather than seeing creativity arise despite its suburban location, *Creativity from Suburban Nowheres* illuminates the emancipatory potential of suburbs for creativity
