The contributions shed light on the study of comparative law in legal scholarship, the relevance of comparative law in legal practice and the importance of comparative law in legal education. American Public School Finance William A. Owings, Leslie S. Kaplan, 2025-09-29 Designed for aspiring school leaders, this fully updated fourth edition presents the realities of school finance policy and issues as well as the tools for formulating and managing school budgets. In an era of dwindling fiscal support for public schools, increasing federal mandates and additional local budget requirements, educational leaders must be able to articulate sound finance theory and application. The authors move beyond coverage found in other texts by providing critical analysis and unique chapters on misconceptions about school finance, fiscal capacity, fiscal effort, adequacy and efficiency, demographic issues, districts' strategic plans' role in budgeting and spending, and student achievement. Examining local, state and federal education spending, this text gives readers the foundation to understand school finance and knowledgeably educate colleagues, parents and other stakeholders about its big picture issues, facts and trends.
