Impact of the sharing economy on hotels in Edinburgh* Marcel Strangmueller, 2018-03-20 Essay from the year 2017 in the subject Tourism Miscellaneous

grade 65 language English abstract This paper shows how research could be done on the topic of Tourism in Edinburgh Scotland The focus here lies on the theory of research rather than the conduction of the research itself Methodology Methods and approaches to research were explored *Monetizing Innovation* Madhavan Ramanujam, Georg Tacke, 2016-05-02

Surprising rules for successful monetization Innovation is the most important driver of growth Today more than ever companies need to innovate to survive But successful innovation measured in dollars and cents is a very hard target to hit Companies obsess over being creative and innovative and spend significant time and expense in designing and building products yet struggle to monetize them 72% of innovations fail to meet their financial targets or fail entirely Many companies have come to accept that a high failure rate and the billions of dollars lost annually is just the cost of doing business Monetizing Innovations argues that this is tragic wasteful and wrong Radically improving the odds that your innovation will succeed is just a matter of removing the guesswork That happens when you put customer demand and willingness to pay in the driver seat when you design the product around the price It s a new paradigm and that opens the door to true game change You can stop hoping to monetize and start knowing that you will The authors at Simon Kucher know what they re talking about As the world s premier pricing and monetization consulting services company with 800 professionals in 30 cities around the globe they have helped clients ranging from massive pharmaceuticals to fast growing startups find success In Monetizing Innovation they distil the lessons of thirty years and over 10 000 projects into a practical nine step approach Whether you are a CEO executive leadership or part of the team responsible for innovation and new product development this book is for you with special sections and checklist driven summaries to make monetizing innovation part of your company s DNA Illustrative case studies show how some of the world s best innovative companies like LinkedIn Uber Porsche Optimizely Draeger Swarovski and big pharmaceutical companies have used principles outlined in this book A direct challenge to the status quo spray and pray style of innovation Monetizing Innovation presents a practical approach that can be adopted by any organization in any industry Most monetizing innovation failure point home Now more than ever companies must rethink the practices that have lost countless billions of dollars Monetizing Innovation presents a new way forward and a clear promise Go from hope to certainty *Cassell's New German Dictionary* Elizabeth Weir, 1892 *The Driver in the Driverless Car* Vivek Wadhwa, Alex Salkever, 2017-11-25

Technology is advancing faster than ever but for better or for worse On the one hand astonishing technology developments such as personalized genomics self driving cars drones and artificial intelligence could make our lives healthier safer and easier On the other hand these very same technologies could raise the specter of a frightening and alienating future eugenics a jobless economy a complete loss of privacy and an ever worsening spiral of economic inequality How can we make appropriate decisions about whether and how to adopt new technologies Vivek Wadhwa and Alex Salkever propose that we ask three questions Does the technology have the potential to benefit everyone equally What are the risks and the rewards Does the technology more strongly promote autonomy or

independence They subject a host of new and potential technologies to these questions but ultimately it is up to the reader to make the final decision
