## **Video Editor Ai In The Us Install:**

Sustainability and Social Responsibility of the Media and in the Media Milan Todorovic, Samuel O. Idowu, Silvia Puiu, 2026-01-01 This book addresses several relevant questions that keep coming up as the media sector develops and changes. Although the field of media is multifaceted, it is still dominated by very large commercial interests. The multitude of platforms, devices, formats, and technologies spread across different market segments are often controlled within the same value and supply chain, which are diagonally integrated and are tightly regulated by a set of changing and evolving community rules. Therefore, this book discusses a wide range of issues related to notions of media in various corporate, independent, and operational contexts of ethics, ownership, authorship, originality, trustworthiness, economic, social, and even environmental sustainability. In this context, the book considers the notion of sustainability and social responsibility in media contexts from a variety of new, unbiased, and diverse perspectives, making it valuable for researchers and practitioners.

*The Art of Insight* Alberto Cairo, 2023-11-15 Learn how expert data visualization designers reason about their craft. In *The Art of Insight*, How Great Visualization Designers Think, renowned visualization designer and educator Alberto Cairo in conversation with several leaders in the field, delivers an inspiring exploration of how they make design choices. The book is a celebration of visualization and a personal journey that dives into subjects like How the professional background and life experiences of every designer shape their choices of what to visualize and how to visualize it. What designers from different countries and cultures and working in different fields such as data art, data analytics, or data journalism have in common or how they differ from each other. How designers reflect on research, ethical reasoning, and also aesthetic judgments to make decisions such as selecting the most appropriate ways to encode data or the most appealing visual style. Perfect for data scientists and data journalists. *The Art of Insight* will also inspire artists, analysts, statisticians, and any other professional who uses data visualizations.

*The New Routledge Companion to Science Fiction*

Mark Bould, Andrew M. Butler, Sherryl Vint, 2024-06-13 The New Routledge Companion to Science Fiction provides an overview of the study of science fiction across multiple academic fields. It offers a new conceptualisation of the field today marking the significant changes that have taken place in sf studies over the past 15 years. Building on the pioneering research in the first edition the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print. It also updates and expands the range of frameworks that are relevant to the study of science fiction. The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context including South Asian Latin American Chinese and African diasporic science fiction. The contributors use both well established critical and theoretical approaches and embrace a range of new ones including biopolitics climate crisis critical ethnic studies disability studies energy humanities game studies medical humanities new materialisms and sonic studies. This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today. The solo exhibition Ai Weiwei absent at Taipei Fine Arts Museum TFAM is the artist's first large scale solo exhibition to be held anywhere in the ethnic Chinese world. The museum presents the exhibition to convey Ai Weiwei's dynamic works of art his ideas and influential power to audience. Ai Weiwei absent presents 21 sets of artwork spanning a period from 1980s to 2011 encompassing a variety of forms such as installation and video and using a variety of materials such as ceramics marble antique utensils and bicycles. It also includes a series of over 100 photographic works 75 of which were taken by the artist during his stay in New York between 1983 and 1993 while the

other 25 pieces were shot after he moved back Beijing East Village in 1993 The artist's most recent work *Forever Bicycles* created specially for this exhibition is composed of 1 200 bicycles and installed in an exhibition space 10 meters high. Bicycles have long been the most common means of transport in China and as such are both familiar and intimate but Ai Weiwei strips away the functionality of the object. He takes his own sensitivity and preferences and through them expands the idea of using finished objects. The use of 1 200 bikes and the large structure of the work were particular challenges in the construction of the piece. In addition as the bikes are piled layer upon layer on top of each other their wheel axles are transformed to form a labyrinthine like space. Visitors can appreciate and reflect on the aesthetics of the abstract shapes from different angles at the same time feeling first hand the work's great energy and appeal.
