Contributions by Daniela Brockdorff, Nina Christensen, Jill Coste, Katrin Dautel, Justyna Deszcz, Tryhubczak, Giuliana Fenech, Naomi Hamer, Irena Barbara Kalla, Anne Klomberg, Sonali Kulkarni, Elizabeth Leach, Leung Ann, Marie Murnaghan, Emily Murphy, Emilie Owens, Nicola Parker, Patrycja Poniatowska, Meg Rosoff, and Farriba Schulz. *Child as Citizen* Agency and Activism in Children's Literature and Culture addresses children's and young adult agency and activism across literature and culture, demonstrating how these forces influence child citizenship. Contributors to this volume highlight the agentic voices and activist practices that are growing across all spheres of young people's lives as well as the challenges to active citizenship that children growing up in unjust sociopolitical contexts face. The volume is interdisciplinary and draws on the sociology of childhood, children's literature studies, youth culture studies, media technology and cultural studies, and Anthropocene, ecofeminist, and disability studies. Agency occurs in and around literature and storytelling, and this collection establishes how it is always influenced by identity as well as geopolitics. How it is both subjective and collective, how it is cultural and embodied, and how like citizenship it is not a static status but rather an ongoing negotiation. In this collection, contributors invite readers to consider agency as a system of relations between children themselves, between children and adults, children and institutions, and children and nation states, as well as between children and the nonhuman. This book reviews the interconnectedness between these relationships and attempts to untangle some of the complications that emerge.

It presents a comprehensive overview of the history of serialized fiction, tracing its evolution from the 19th century to the present day, followed by an examination of the technological infrastructure supporting digital reading. By combining historical analysis with contemporary data, *Fiction Format Shift* offers a unique perspective on the digital transformation of literature, making it valuable for anyone interested in the intersection of technology and language arts. The core of the book explores how digital formats have influenced reader behavior and considers the implications for authors and the future of literary creation.
