Instagram Vs:

Instagram Tama Leaver, Tim Highfield, Crystal Abidin, 2020-01-22 Instagram is at the heart of global digital culture having made selfies filters and square frames an inescapable part of everyday life since it was launched in 2010. In the first book length examination of Instagram Tama Leaver, Tim Highfield and Crystal Abidin trace how this quintessential mobile photography app has developed as a platform and a culture. They consider aspects such as the new visual social media aesthetics, the rise of Influencers and new visual economies and the complex politics of the platform as well as examining how Instagram's users change their use of the platform over time and respond to evolving features. The book highlights the different ways Instagram is used by subcultural groups around the world and how museums, restaurants and public spaces are striving to be Insta worthy. Far from just capturing milestones and moments, the authors argue that Instagram has altered the ways people communicate and share while also creating new approaches to marketing, advertising, politics and the design of spaces and venues. Rich with grounded examples from across the world from birth pictures to selfies at funerals, Instagram is essential reading for students and scholars of media and communication.

Advancements in Socialized and Digital Media Communications Erol, Gülbüş, Kuyucu, Michael, 2024-01-26 In the modern world, digital communication presents a dual role of advantage and challenge. The surge in social media platforms and technological innovations has revolutionized interpersonal interaction, information accessibility, and communication methods. Nonetheless, this intricate landscape poses significant obstacles for scholars, researchers, and students across diverse domains. The infusion of social media into realms such as communication science, advertising, and public relations underscores the need for authoritative resources that can illuminate current trends and future projections in digital communication. Moreover, given the dynamic nature of digital technologies and social media platforms, continuous and pertinent research is imperative to fathom their societal impact and communication implications. Offering a definitive solution to the challenges presented by the digital communication revolution, *Advancements in Socialized and Digital Media Communications* edited by Ebru G. Ibu Erol and Michael Kuyucu emerges as a pivotal work. This book provides a comprehensive compilation of both empirical and theoretical insights spanning a spectrum of digital communication facets. Encompassing disciplines like public relations, journalism, marketing, cinema, and radio/television, the book equips researchers, academics, and students with comprehensive perspectives, research findings, comparative analyses, and in-depth case studies. Addressing a diverse audience from seasoned scholars to curious professionals and the public, the book's thought-provoking chapters traverse social networks, digital radio, video sharing platforms, advertising, and reputation management, offering a well-rounded grasp of digital communication's intricacies. By delivering up-to-date and extensive explorations of digital media and communication, this book empowers readers to navigate the complexities of this swiftly evolving realm.

Philosophy of Fame and Celebrity Catherine M. Robb,Alfred Archer,Matthew Dennis,2024-11-14 In an era of cancel culture digital identities and thriving conversation surrounding parasocial relationships we question today the nature of the celebrity the scope of their power and influence as well as the ethical issues these implicate It is a wonder then that philosophy is a discipline that has as of yet contributed surprisingly little to this debate despite the growing philosophical literature on connected philosophical

topics that serve as a starting point for the philosophical inquiry into the nature and value of fame and celebrity. For example the literature on the philosophy of admiration achievement skills and talents epistemic authority virtue and moral psychology can all serve to analyse the important questions arise when considering what fame is and the way that it influences the way we live. Offering the first introductory overview of the key philosophical issues involved in the nature and value of fame and celebrity this edited collection provides a new perspective and voice to the conversation. Divided into four parts its first focuses on conceptual differences between fame and celebrity the experience of being famous how celebrities interact with the public and what motivates people to desire or pursue fame. The second part of the volume explores fame and virtue as well as the ways in which ethical issues intertwine with fame concluding with an examination of the nature of fame in relation to contemporary online culture. As digital technologies expand cultural commentators remark that we are all becoming celebrities scrutinized by the public gaze whether we like it or not. This book therefore answers a pressing need for if celebrity culture continues to expand and consume our social lives the case for a philosophical reflection on the nature and value of this culture becomes even more necessary.

Flagships or phase-out models for climate change communication? An analysis of the effects of climate change imagery on the audience

Jana Mengede, 2021-12-23 Master's Thesis from the year 2021 in the subject Communications Mass Media grade 1.2 SRH Mobile University language English abstract As climate change is a development that happens slowly and is widely invisible many photographers have made it their mission to visualize its causes and impacts on society. Since the early 2000s they have established visual synecdoches by using repetitive formulas for their images to show the vulnerability of natural and human systems. Whereas such repetition creates awareness and recognition within society, still there is also criticism that any attempt to visualize climate change often leads to the same representations of melting ice, Polar Bears or natural disasters. The purpose of this work is to find out which repetitive motives are used by the media and how these motives affect the people. By means of a mixed method approach it examines if the flagships of climate change imageries such as the polar bear still promote salience to the audience and if images of climate change solutions evoke positive feelings and can therefore be considered as motivating. In order to answer the question which climate change imageries are used by the media a quantitative analysis of image types according to Grittmann and Ammann is conducted. This analysis shows that there are leading motives which are repetitively used as visualizations to accompany online news reports, among them mainly images of causes, smokestacks and impacts, wildfire, ice imagery and extreme weather. The media rarely report on climate change solutions. In a second step a sample of ten images of these leading motives is selected for the explorative research of image effects. By means of the Visual Communication Process Model Müller, Kappas and Olk it examines how people visually perceive these images, how they understand and interpret them and what emotions they cause. The effects are measured with a self-administered online questionnaire. The results of the survey reveal that the repetition of motives and the use of flagships does not lead to climate fatigue. Anyway there is only one solution imagery that clearly verifies the positive effects on the self-efficacy level of the audience. Although such imageries receive attention on social media they have not reached the mass media so far which could serve as a starting point for future research.

On Display John D. Boy Justus

Uitermark, 2023-12-14 Two billion people around the world use Instagram but so far social scientists have done little research on the platform. Despite Instagram's reputation for shallowness, the ongoing self-presentation it demands confronts users with profound dilemmas. Who are we? What do we want to show of ourselves? What do we aspire to be? *On Display* is a book about how people remake their worlds through social media. John D. Boy and Justus Uitermark provide an encompassing account of how a platform that is unfailingly polished and ruthlessly judgmental shapes us and our environments. They examine how personalities, relations, social movements, urban subcultures, and city streets change as they are represented on Instagram. Interviews and ethnographic vignettes render an intimate account of the desires and anxieties that animate the platform. Just as importantly, Boy and Uitermark reveal how Instagram is implicated in social inequalities. While previous accounts have argued that social media promote polarization, *On Display* shows that this is not the case for Instagram, where users belong to large and diverse networks, compelling them to take many often contradictory expectations into account. This means users shy away from producing statements or images that may cause offense as a way to preserve their public image and their social connections. Drawing on sociological theory, long-term qualitative inquiry in Amsterdam, and computational analyses, Boy and Uitermark argue that grasping the power of Instagram and other social media platforms requires seeing them not as digital networks of communication and sharing, but as a stage for the expression and affirmation of social status.

Analysis of the Success Factors of SVOD to reach Generation Z Lien La, 2022-05-16 Master's Thesis from the year 2019 in the subject Communications Public Relations Advertising Marketing Social Media grade 1.4 Berlin School of Economics and Law language English abstract This paper is an analysis of the success factors of SVOD to reach Generation Z. It includes a case study of MTV. The objective of the present thesis is the identification and analysis of KSF of SVOD in order to attract Gen Z. It seeks to understand and examine SVOD usage behavior and preferences within the audience of Gen Z. After the determination of KSF geared towards the user expectations and preferences of Gen Z, implications and recommendations for the newly launched SVOD channel MTV will be identified. Three research questions are central to the present study: 1. What is the SVOD usage behavior of Gen Z? 2. Which KSF are perceived as valuable by Gen Z? 3. How should MTV design their SVOD offer in order to attract Gen Z? The first chapter is the introduction, which provides the problem statement, its purpose, relevant research questions, and the course of investigation. The second chapter presents a literature review. It is organized into four parts: the first part reviews academic literature relevant to research on KSF; the second part of the literature review sheds light on the uses and gratification theory; UGT focuses on different aspects of the media usage of Gen Z and introduces KSF in media; the third part presents subscription models in the media industry, an overview of the SVOD market, and a best practice analysis with relevant players; the last part of chapter two summarizes the literature review findings to develop a SVOD KSF framework. Chapter three makes use of the previous developed framework and analyzes the KSF of MTV. The fourth chapter is the methodological framework of the study, including the research method, questionnaire design, data

collection and sampling data analysis and research findings Chapter five introduces recommendations for MTV based on the empirical research The thesis concludes with chapter six which gives answers to the research questions a general conclusion the limitations of this study and suggests topics in need of further research [Instagram Rules](#) Jodie Cook,2020-10-27

Communications Journalism Journalism Professions grade 1 7 University of Frankfurt Main language English abstract This thesis examines why and in what way tabloid media and celebrities themselves via social media portray two different realities Undeniably celebrities are omnipresent They are on posters on book covers and in form of toys on store shelves but most importantly they are omnipresent in various kinds of media They are in movies and on TV maybe as participants in a reality show or when taking a seat next to a talk show host they are covered in news stories of the press and are part of the social network In fact even though celebrities can for example be experienced on stage or on a soccer field they mainly are experienced in the media And the media play a very evident and crucial role with regards to the creation of a celebrity stigma around a certain person and also with regards to how stars and celebrities are perceived When consuming any kind of media portrayal about a certain celebrity the media consumer feels as if he gets to know the certain celebrity But when comparing both tabloid media's portrayal and celebrities own portrayal via social media it becomes evident that the portrayals of the one and the other often are very different from each other and it seems as if thoroughly there are two different realities mediated Even though a true self or with focus to specifically celebrities true celebrity self cannot and does not even exist in some way it implicitly is claimed to be portrayed and also in some way is expected to be portrayed This might sound contradictory at first but as elaborated in this paper it actually is not *Instagram For Business For Dummies* Jenn Herman, Eric Butow, Corey Walker, 2020-12-21 Put your best brand story in front of 1 billion users One of the most energetically social of the major social media platforms Instagram has the highest brand engagement rate of them all Throw in the app's more than 1 billion active monthly users and its powerful business tools including shoppable posts devoted business profiles and advanced analytics and you have an unmissable opportunity to tell a gripping story that bonds you with your customers and makes your business an integral part of their social media lives The latest edition of Instagram For
