Emerging Perspectives in the Study of Folklore and Performance Solimar Otero, Anthony Bak Buccitelli, 2025-05-27 Just over half a century ago the rise in what became known as the performance turn in folklore studies led to the diffusion of performance as both a lens and a key concept across a wide range of humanistic disciplines Now it s time to take stock of the myriad ways in which performance and folklore studies have developed along both parallel and intersecting paths Emerging Perspectives in the Study of Folklore and Performance reveals the captivating world where folklore and performance studies meet up revealing both the connections and disparities between the two fields From the mid 20th century to the present day luminaries like Richard Bauman Erving Goffman Roger Abrahams Charles Briggs Richard Schechner Dell Hymes Jos Esteban Mu oz Peggy Phelan Barbara Kirshenblatt Gimblett Deborah Kapchan and Diana Taylor have woven a rich tapestry of discourse seamlessly blending the realms of folklore and performance Editors Solimar Otero and Anthony Bak Buccitelli present a magnificent collection of chapters that delve into the intricacies of this enduring relationship These diverse essays explore how folklore and performance intersect in realms as varied as digital culture social movements ritual narrative race and technology archival practices ambient play post human intersectionalities speculative world making and embodied knowledge Emerging Perspectives in the Study of Folklore and Performance is a must read for scholars students and enthusiasts alike offering fresh insights into the evolving landscape of folklore and performance studies and transforming the ways that we connect to culture place and community

Communicating with Memes Grant Kien, 2019-06-03

Communicating with Memes Consequences in Post truth Civilization investigates the consequences of memetic communication the causes of these consequences and what action if any should be taken in response Communicating with memes across social media networks has become a commonplace activity in today s world despite the fact that just years earlier this mode of communication was a rarity The rapid adoption of this new mode of communication through ubiquitous social media and device use is resulting in a major transformation of the ways in which we think and behave in our digital world From the election of Donald Trump to online harassment and identity theft to the resurgence of once eradicated diseases due to the anti vaxxer movement Grant Kien analyzes fourteen major consequences of this shift and confronts the question of how to approach these consequences

Critical Essays on Twin Peaks: The Return Antonio

Sanna, 2019-01-04 This edited collection offers an interdisciplinary study of Twin Peaks The Return the third season of a TV program that has attracted the attention and appreciation of spectators fans and critics for over two decades The book takes readers into several distinct areas and addresses the different approaches and the range of topics invited by the multidimensionality of the subject itself the philosophical the artistic the socio cultural and the personal The eighteen chapters constituting the volume are academic in their approach to the subject and in their methodology whether they apply a historical psychoanalytical film studies or gender studies perspective to the text under examination The variety and range

of perspectives in these aforementioned chapters reflect the belief that a study of the full complexity of Twin Peaks The Return as well as a timely assessment of the critical importance of the program requires both an interdisciplinary perspective and the fusion of different intellectual approaches across genres The chapters demonstrate a collective awareness of the TV series as a fundamental milestone in contemporary culture *AI Magazine*, 1986 Imaginative Minds Ilona Roth, 2007-12-27 This volume brings the theories and methods of a range of disciplines to bear on the imaginative workings of the human mind The distinguished contributors demonstrate their own imaginative flair in a fascinating and varied collection of essays about this most elusive and special human capacity Genes Vs.
