Junior Mathematical Dominoes Tracey Macdonald, 2021-07-02 This is a collection of photocopiable masters for Domino games for ages 7-11 on a variety of core topics. All the dominoes should form a continuous loop when each question is matched to its correct answer. This means that the students can self-assess their work to some extent, thus reducing workload for the teacher. They are ideal for revision and reinforcement. The games have been used to start lessons, end lessons, on a bit of fun as a main activity, and for end of term fun. They can either be prepared in advance, kept ready in the cupboard, or cut out by students before trying to loop them. The students can even be involved in making their own sets, which they get to use again, share with other classes, or display on the wall.

Telephony, 1906 House documents, 1889 A Matter of Weeks Rather Than Months J. R. T. Wood, 2012 Founded on 35 years of research into the post-1945 Anglo-Rhodesian history, this book complements Richard Wood's *The Welensky Papers: A History of the Federation of Rhodesia and Nyasaland 1953-1963-1983 and So Far and No Further: Rhodesia's bid for independence during the retreat from empire 1959-1965-2005*. Of *So Far*, Michael Hartnack wrote that "Once in a lifetime comes a book which must force a total shift in the thinking person's perception of an epoch and of all the prominent characters who featured in it." *A Matter of Weeks Rather Than Months* recounts the action and reaction to Ian Smith's unilateral declaration of Rhodesia's independence, the second such declaration since the American one of 1776. It examines the dilemmas of both sides. Smith's problem was how to legitimise his rebellion to secure crucial investment, capital, markets, trade, and more. His antagonist, the British Prime Minister Harold Wilson, was determined not to transfer sovereignty until Rhodesia accepted African majority rule in common with the rest of Africa. Given British feelings for their Rhodesian kith and kin, and Rhodesia's landlocked position, Wilson eschewed the use of force. He could only impose sanctions but hoped they would defeat Smith in a matter of weeks rather than months. The Rhodesians, however, evaded the sanctions with such success that they forced Wilson to negotiate a settlement. Negotiations were nevertheless doomed because the self-confident Rhodesians would not accept a period of direct British rule while rapid progress to majority rule was made, or the imposition of restraints on powers they had possessed since gaining self-government in 1923. In tune with their allies in the African National Congress of South Africa, the Rhodesian or Zimbabwean African nationalists had already adopted the Marxist concept of the Armed Struggle as a means to power. Sponsored by the Communist Bloc, its surrogates, and allies, they began a series of armed incursions from their safe haven in Zambia. Although bloodily and easily repulsed, they would learn from their mistakes as the Rhodesian forces would discover in the 1970s. Consequently, this is a tale of sanctions, negotiations, and counter-insurgency warfare.
