*The Movies That Changed Us* Nick Clooney, 2010-05-11 Nick Clooney one of America's most respected film critics and historians presents a distinctive catalog of movies that have influenced and altered not only the world of cinema but also the world in which we live. Since the advent of moving pictures there have been films that exist as more than just entertainment. These rare movies have touched the collective soul of the public with such passion and artistic skill that they have actually changed the way we view life history and ourselves. Some have transformed the way movies are made and viewed and some have actually transformed us. In *The Movies That Changed Us* Clooney explores, explains, and theorizes upon twenty films reaching from 1998 back to 1915 that forever shifted our perceptions about race, religion, sex, politics, and the very definition of humanity. From the ambitiously epic though manifestly racist *Birth of a Nation* to the controversial violence of *Taxi Driver* to the mythic idealism and visual cornucopia of 2001 *A Space Odyssey* and *Star Wars*, Clooney relates the stories behind the camera in an informative, engaging, and personal chronicle of cinema and society. *Newsweek*, 2002 QST, 1965

Liza Larkin, a socially aberrant pathology resident, relies on these words of her late father to guide her through a world she doesn't feel a part of. If not for his training over the years and her psychiatrist's ongoing care, she might be in jail or worse. So when her colleague Megan worries something awful has happened to her aunt, Liza does what she has learned to do. She helps. She drives Megan to Boston to look for the woman. It doesn't take long. Megan's aunt lies dead in her condo in what is soon ruled a freakish accident. But Liza doesn't buy it. She suspects foul play and, with a formal police investigation now off the table, she'll hunt for the murderer herself, even if it means coloring outside moral lines yet again.
