## **Patrick Geddes And Town Planning A Critical View:**

*Patrick Geddes and Town Planning* Noah Hysler-Rubin, 2013-12-16 Patrick Geddes is considered a forefather of the modern urban planning movement. This book studies the various and even opposing ways in which Geddes has been interpreted up to this day, providing a new reading of his life, writing, and plans. Geddes' scrutiny is presented as a case study for Town Planning as a whole. Tying together for the first time key concepts in cultural geography and colonial urbanism, the book proposes a more vigorous historiography exposing hidden narratives and past agendas still dominating the disciplinary discourse. Written by a cultural geographer and a town planner, this book offers a rounded full-length analysis of Geddes' vision and its material manifestation, functioning also as a much-needed critical tool to evaluate Modern Town Planning as an academic and practical discipline. The book also includes a long overdue model of his urban theory. **Topothesia** Ameeth Vijay, 2023-05-02 SHORTLISTED 2024 MSA FIRST BOOK PRIZE Topothesia reads urban planning as a mode of speculative fiction, one inextricably linked to histories of British colonialism and liberalism through a particular understanding of place. The book focuses on town planning from the late nineteenth century to the present day, showing how the contemporary geography of Britain is sharply unequal and marked by racial division, continuing ideologies of place established in colonial contexts. Specifically, planning allows for the speculative construction of future places that are both utopian in their ability to resolve political disagreement and at the same time tantalizingly realizable, able to be produced in concrete reality. This speculative imaginary, I argue, is only possible within the ideological framework of colonialism and the history of empire within which it developed. Topothesia refers to a rhetorical device employing the vivid depiction of an often imaginary place. This device, Vijay shows, helps us understand urban planning as a narrative genre, one that even in its most mundane documents is compelled to produce elaborate fantasies of future places. The book examines specific planning movements over time to understand the form and the stakes of their speculative worlds. In building these worlds, the book shows planners continually coopted literary critiques of the present and reveries of the future, retaining literature's aesthetics while eschewing its politics. At the same time, Vijay shows writers and artists have dwelled within and against these colonial imaginaries to seek other means of representing place. Colonial Diplomacy through Art Moya Tönnies, 2024-12-30 Addressing Zionists in 1923, the British artist C. R. Ashbee spoke of that preposterous Balfour Declaration whose Arabic tail you people perpetually ignore but the lash of which you will some day feel. His warnings received no attention at the time nor has his radical pro-Arab Palestinian political position been researched since. One hundred years later, this art historical study asks what possibilities individual colonial actors had to influence official colonial policy. In the example of Jerusalem under British rule, Moya Tönnies analyses how three members of the British administration, Ashbee, architect Ernest Tatham, Richmond, and governor Ronald Storrs, all three identifying with the International Arts and Crafts Movement, used art as a diplomatic sphere for their British colonial anti-Zionist interventions.
