Cooperation and Enlargement: Two Challenges to be Addressed in the European Projects—2022 Ghislaine Pellat, Jovan

Zafirovski, Marian Šuplata, 2023-11-10 In this book the ERECO PGV 1 network wishes to make an overview of the cooperation implemented by and in the European Union and to describe the concrete forms they have taken. The issue is to analyze the internal European cooperation between economic actors, politicians and EU citizens at different levels but also to focus attention on the external cooperation neighborhood policies, external policies and collaborations with international institutions, NATO, OECD, WTO etc. Carrying uncompromising attention on this issue means rethinking the European project in light of today's challenges. From the very beginning the EU was based on and called for forms of multinational cooperation, bilateral, internal and external at different levels involving economic actors, public actors, local authorities and civil society. The frameworks for this cooperation as well as for the successive enlargements of the EU were drawn up in the context of European negotiations in particular during discussions on the European Treaties. European values, standards and rules are embodied in the texts of agreements, resolutions and European directives and Treaties signed by all member countries. They establish the functioning of European institutions and the framework of democratic life in Europe. The emergence of current crises, Brexit, COVID 19, migration crisis, non-respect of rule of law, rules, refusal of certain member countries to apply the European Charter of Human Rights etc. is questioning the project of the European Union and introduced the challenges which should be overcome by the proposal of the new project able to face the internal complexity of the Union and to answer to the pressure of a conflicting international context. What remains of the European ideal affirmed in the treaties of 1957

1992 and 2007 How to re enchant the common project Yet the European Union remains attractive to new candidate countries How do they read the integration conditions into the EU with regard to their own projects **Perspectives on Kuhn** Leandro Giri,Pablo Melogno,Hernán Miguel,2023-01-16 This book presents essays and commentaries that continue on Thomas Kuhn's work from where he left off at the time of his death Contrary to other books this volume picks up the gauntlet to develop from a contemporary perspective some points that can be improved in the light of recent findings and conceptualizations in metatheory Thus this work pays a visit to the classical Kuhnian landscapes but rather proposing interpretations it takes them as the starting point to go further One hundred years after Kuhn's birth the editors and authors rekindle the passion and interest that have always surrounded the work of the great Boston philosopher and historian
