Houseways in Southern Oman, Marielle Risse, 2022-12-30. This book explores how houses are created, maintained and conceptualized in southern Oman. Based on long term research in the Dhofar region, it draws on anthropology, sociology, urban studies and architectural history. The chapters consider physical and functional aspects including regulations governing land use, factors in siting houses, architectural styles and norms for interior and exterior decorating. The volume also reflects on cultural expectations regarding how and when rooms are used and issues such as safety, privacy, social connectedness and ease of movement. Houses and residential areas are situated within the fabric of towns; comparison is made with housing in other countries in the Arabian peninsula and consideration is given to notions of the Islamic city and the Islamic house. The book is valuable reading for scholars interested in the Middle East and the built environment.

Building with Light in the Pacific Northwest, Erika Rosenfeld, 2007. Light may be both particles and waves but rarely is it considered a material for building; it is the essence of insubstantiality, too inconstant to be relied upon, a desirable afterthought in much 20th and 21st century architecture. For architect Thomas L. Bosworth, however, it is the *primum mobile* and his extraordinary, almost praeternatural understanding of light as a living thing informs his sight, his vision and his work. In a career that began in 1960 in the office of Eero Saarinen and continues with new projects on the boards today, he has consistently used natural light to inform his architecture, to give it both shape and meaning.

Building With Light in the Pacific Northwest. The Houses of Thomas Bosworth Architect is a review of some of Bosworth's most exceptional houses. Organized by plan type, they reveal on the one hand the consistency of his principles, landscape, natural

light handcraft symmetry axiality and memory and on the other his near infinite capacity to conceive something entirely new and fresh with each house A teacher and scholar as well as practicing architect Bosworth is a classicist strongly influenced by Greek and Roman architecture and especially powerfully by the work and writings of Palladio His work is equally motivated by land and landscape architecture follows site literally and aesthetically and every house sits on and in its particular location with a perfect sense of rightness and inevitability ILLUSTRATIONS 243 colour 17 b w photographs 130 illustrations *Quill & Quire* ,2002 **Real Goods Solar Living Source Book** John Schaeffer,Alan Berolzheimer,Bill Giebler,2008 The essential renewable energy resource completely revised and updated for 2008 **Architecture Minnesota** ,2003 *Whole Earth* ,2002 *The Publishers Weekly* ,2002
