come to terms with the modern worldview     *Empirical Truths and Critical Fictions* Cathy Caruth,1991-01-01 In the prevailing account of English empiricism Locke conceived of self understanding as a matter of mere observation bound closely to the laws of physical perception English Romantic poets and German critical philosophers challenged Locke s conception arguing that it failed to account adequately for the power of thought to turn upon itself to detach itself from the laws of the physical world Cathy Caruth reinterprets questions at the heart of empiricism by treating Locke s text not simply as philosophical doctrine but also as a narrative in which experience plays an unexpected and uncanny role Rediscovering traces and transformations of this narrative in Wordsworth Kant and Freud Caruth argues that these authors must not be read only as rejecting or overcoming empirical doctrine but also as reencountering in their own narratives the complex and difficult relation between language and experience Beginning her inquiry with the moment of empirical self reflection in Locke s *Essay Concerning Human Understanding* when a mad mother mourns her dead child Caruth asks what it means that empiricism represents itself as an act of mourning and explores why scenes of mourning reappear in later texts such as Wordsworth s *Prelude* Kant s *Metaphysical Foundations of Natural Science* and *Prolegomena to Any Future Metaphysics* and Freud s *Civilization* From these readings Caruth traces a recurring narrative of radical loss and the continual displacement of the object or the agent of loss In Locke it is the mother who mourns her dead child while in Wordsworth it is the child who mourns the dead mother In Kant the father murders the son while in Freud the sons murder the father As she traces this pattern Caruth shows that the conceptual claims of each text to move beyond empiricism are implicit claims to move beyond reference Yet the narrative of death in each text she argues leaves a referential residue that cannot be reclaimed by empirical or conceptual logic Caruth thus reveals in each of these authors a tension between the abstraction of a conceptual language freed from reference and the compelling referential resistance of particular stories to abstraction     ARTnews

,2005     *Silence, the Word and the Sacred* Rudy Wiebe,1989 The result of a dialogue between poets and scholars on the meaning and making of the sacred this book endeavours to determine how the sacred emerges in sacred script as well as in poetic discourse It ranges through scholarship in areas as apparently disparate as postmodernism and Buddhism The perspectives developed are various and without closure locating the sacred in modes as diverse as patristic traditions feminist retranslations of biblical texts and oral and written versions of documents from the world s religions The essays cohere in their preoccupation with the crucial role language plays in the creation of the sacred particularly in the relation that language bears to silence In their interplay language does not silence silence by rather calls the other as sacred into articulate existence     German/English Dictionary of Idioms Hans Schemann,2013-05-13 This unique dictionary covers all the major German idioms and is probably the richest source of contemporary German idioms available with 33 000 headwords Within each entry the user is provided with English equivalents variants contexts and precise guidance on the degree of currency rarity of an idiomatic expression This dictionary is an essential reference for achieving fluency in the
