systematic approach that helps you break down and translate each question into familiar terms so you can make full use of your clinical judgment and silence exam anxiety This book provides you with that strategy It combines fundamental nursing skills with proven test taking methods to help you apply the practical knowledge you already have instead of trying to memorize answers and concepts And by using this step by step approach you ll not only gain the confidence to tackle any question on the PCCN exam but you ll also improve your chances of earning your certification in just one go Here s a small sample of what you ll discover inside this book A simple 4 step approach that lets you dissect each question on the exam and narrow down your options by tapping into your clinical expertise Which biological systems and diseases make up the most significant portion of the exam The core components of the AACN s Synergy Model and which aspects you re likely to be tested on What to know before you start studying this is vital to helping you squeeze the most out of your study prep Which 15 types of cardiovascular health conditions every critical nurse needs to know along with key nursing actions to familiarize yourself with Three full length practice test that includes 125 unique questions and detailed answer explanations plus 50 extra practice questions to help reinforce your knowledge for each section on the PCCN And much more You ll also find out which specific nursing actions and procedures are covered on the exam key types of patient data you re expected to know and the different kinds of questions the PCCN uses to test your knowledge By the end you ll know what to expect on every section of the exam including the most critical points many nurses forget about So even if you re still starting to build out your career you ll have a winning strategy that can help maximize your chances of passing the PCCN on your first try If you re ready to take the next step toward earning your PCCN certification then you need this book today
