Developmentally Appropriate Curriculum in Action Marjorie J. Kostelnik, Anne Soderman, Michelle Rupiper, Alice Whiren, 2013-04-29 Written for courses in Curriculum in Early Childhood Education and Methods for Teaching Young Children in Preschool and Kindergarten A comprehensive overview of all the components necessary to run an effective early childhood program as a teacher this concise new text is keenly focused on application and skill building utilizing several areas of child development aesthetic affective cognitive language physical and social as the basis for curriculum planning Neither a subject based nor a materials based curriculum this directly applicable text instead promotes several areas of child development and incorporates subject matter areas art math literacy and science into the developmental domains rather than focusing on the subjects themselves The authors present six activity types exploratory play guided discovery problem solving discussions demonstrations and direct instruction in every domain Furthermore they provide long form lesson plans and short form plans that illustrate these activity types in all of the curriculum chapters Closely aligned to the current developmentally appropriate practice DAP guidelines the text effectively prepares pre service teachers for the Praxis II exam if it is required in their state Promoting the teacher as an active participant in education is another important characteristic

of the text with a detailed discussion of the importance of being intentional in one's teaching and what this looks like in a true classroom environment. The authors support this ideology by explaining and showing how a teacher becomes more active, one ready to make continual judgments about what to plan, how to build on children's interests and knowledge, and how to interact with children to scaffold their learning. Strongly methods-based in its approach, the text also imparts the how-to of teaching with a plethora of examples as to what is appropriate to teach children ages three to six years of age.

Integrated Curriculum and Developmentally Appropriate Practice Craig H. Hart, Diane C. Burts, Rosalind Charlesworth, 1997-07-10. This volume combines research and practice on integrated, developmentally appropriate curriculum in a manner that will help theorists, researchers, parents, school administrators, and teachers understand how to match early childhood teaching practices to the integrated manner that young children naturally think and learn. The book features

specialists in each of the traditional curriculum areas e.g. math, science, literacy who share their expertise on how to accomplish this in practical and meaningful ways based on NAEYC and other professional organization guidelines. What an integrated curriculum means for assessment, children with disabilities, guidance, parenting, social development, and multicultural perspectives in early childhood education is also covered.

Resources in Education, 2000. **Developmentally Appropriate Practice** Carol Gestwicki, 1995. The increasing numbers of young children cared for by others beyond family has naturally led to questions about the most helpful practices to nurture their development. Now educators, caregivers, administrators, and parents can get the direction they need. Practical and comprehensive, this book offers clear discussions on the specifics of what is and is not developmentally appropriate for children from birth through age 8.

Developmentally Appropriate Teaching in Early Childhood Dominic F. Gullo, 1992. The guiding principles of developmentally appropriate early childhood education are examined along with pertinent research, concrete examples, and implications for practice. Chapter 1 provides a brief introduction to recent trends in early childhood education. Chapter 2 considers the principle of matching early childhood education practices to the ways children learn. Factors affecting children's development and the unique characteristics of young children's thinking are explored. Chapter 3

addresses the implementation of developmentally appropriate curricula in learning environments that are structured to encourage exploration and facilitate learning and development Characteristics of the environments and materials from which children process information construct knowledge and solve problems are examined The guiding principle considered in chapter 4 is that of viewing the age range of 5 to 8 years as a continuum of development rather than as a series of discrete grade levels Curricular and instructional strategies for dealing with the similarities and differences in this age span are discussed Chapter 5 urges educators to consider parent involvement as a critical element in the early childhood curriculum The benefits of parent involvement for children parents teachers and schools are described Chapter 6 delves into the relationship between evaluation the curriculum and the child arguing for the use of ongoing evaluation for decision making and curriculum development Finally chapter 7 offers a transactional approach to teaching in early childhood AC

Current Index to Journals in Education, 2001 *Curriculum in Early Childhood Education* Nancy File, Jennifer J. Mueller, Debora Basler Wisneski, 2012-01-30 Curriculum in Early Childhood Education Reexamined Rediscovered Renewed provides a critical examination of the sources aims and features of early childhood curricula Providing a theoretical and philosophical foundation for examining teaching and learning this book will provoke discussion and analysis among all readers How has theory been used to understand develop and critique curriculum Whose perspectives are dominant and whose are ignored How is diversity addressed What values are explicit and implicit The book first contextualizes the historical and research base of early childhood curriculum and then turns to discussions of various schools of theory and philosophy that have served to support curriculum development in early childhood education An examination of current curriculum frameworks is offered both from the US and abroad including discussion of the Project Approach Creative Curriculum Te Wh riki and Reggio Emilia Finally the book closes with chapters that enlarge the topic to curriculum being enacted through play and that summarize key issues while pointing out future directions for the field Offering a broad foundation for examining curriculum in early childhood readers will emerge with a stronger understanding of how theories and philosophies intersect with curriculum development

Contemporary Influences in Early Childhood Curriculum Olivia N. Saracho, Bernard Spodek, 2002-01-01 Educational scholars have proposed various definitions of curriculum with no universal agreement Despite this curriculum development consistently involves setting goals creating experiences and evaluating outcomes This book explore curriculum development and contemporary perspectives in early childhood education
