Minority Accommodation Through Territorial and Non-territorial Autonomy Tove H. Malloy,Francesco Palermo,2015 For centuries autonomy has been a public policy tool used to provide stability and cohesion to multicultural societies Examining case studies on non territorial autonomy arrangements in comparison with territorial autonomy examples this book informs both design and decision making on managing diversity Minority Accommodation through Territorial and Non-Territorial Autonomy Tove H. Malloy,Francesco Palermo,2015-10-08 Minority Accommodation through Territorial and Non Territorial Autonomy explores the relationship between minority territory and autonomy and how it informs our understanding of non territorial autonomy NTA as a strategy for accommodating ethno cultural diversity in modern societies While territorial autonomy TA is defined by a claim to a certain territory NTA does not assume that it is derived from any particular right to territory allocated to groups that are dispersed among the majority while belonging to a certain self identified notion of group identity In seeking to understand the value of NTA as a public policy tool for social cohesion this volume critically dissects the autonomy arrangements of both NTA and TA and through a conceptual analysis and case study examination of the two models rethinks the viability of autonomy arrangements as institutions of diversity management This is the second volume in a five part series exploring the protection and representation of minorities through non territorial means examining this paradox within law and international relations with specific attention to non territorial autonomy NTA

**Minorities and Law in Czechoslovakia, 1918-1992** Jan Kuklík,René Petrás,2017-05-01 Ethnic minority issues played an important role in the history of Czechoslovakia from 1918 during World War II and in the years immediately following it Czechoslovakia became a model for solving ethnic and minority problems and legal regulations had always played a key role in the status of minorities This book which deals with issues concerning ethnic and language minorities in Czechoslovakia from a long term perspective is primarily intended for foreign readers In recent years ethnic minority issues are once again becoming relevant in Europe and thorough knowledge of earlier problems and solutions may facilitate further examination of the current problems *Roving Revolutionaries* Houri Berberian,2019-04-16 Three of the formative revolutions that shook the early twentieth century world occurred almost simultaneously in regions bordering each other Though the Russian Iranian and Young Turk Revolutions all exploded between 1904 and 1911 they have never been studied through their linkages until now Roving Revolutionaries probes the interconnected aspects of these three revolutions through the involvement of Armenian revolutionaries whose movements and participation within these empires where Armenians were minorities and across frontiers tell us a great deal about the global transformations that were taking shape Exploring the geographical and ideological boundary crossings that occurred Houri Berberian's archivally grounded analysis of the circulation of revolutionaries ideas and print tells the story of peoples and ideologies amid upheaval and collaboration In doing so it illuminates our understanding of revolutions and movements **A Global Law of Diversity** Nicolò Paolo

Alessi,2024-11-25 This book provides a global perspective on the accommodation of diversity within constitutional traditions considering the most innovative approaches and legal instruments of the Global North and Global South This field of study traditionally dominated by a Global North approach based on majority minority and rights based discourse is undergoing significant development The work thus assesses the appropriateness of the existing mainstream theoretical tools and concepts in particular minority and minority related concepts as well as rights discourse to grasp the ongoing evolution of this field of law A reconsideration of the traditional conceptual categories and the introduction of the concept Law of Diversity is proposed as a theoretical framework to grasp the ongoing developments in this area Among the models studied those that are referred to as emergent models for the accommodation of diversity in the Global North appear to be particularly in need of theoretical recognition To this end the theory of federalism is used to serve a rather unexplored theoretical function Federal theory is put forward as a theoretical instrument to frame and explain the emergent instruments for the accommodation of diversity as well as provide practical solutions for their development The book will be of interest to researchers academics and policy makers working in the areas of comparative constitutional law minority and indigenous rights law and federal studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license [Unity in Diversity](#) Christophe van der Beken,2012 This book argues that the development of federalism in Ethiopia fits in with a global trend towards increased attention to ethnic minority rights and to federalism as a mechanism for ethnic conflict prevention and management The Ethiopian federation is designed as a framework within which the Ethiopian ethnic groups can protect their rights and within which they are stimulated to develop a cooperative relationship To put it differently the constitutional objective of the federal structure is the creation of unity in diversity The book evaluates the capacity of Ethiopian federalism to achieve this objective by investigating the relevant historical political and legal aspects Series Recht und Politik in Afrika Law and Politics in Africa Vol 10 *The Challenge of Non-territorial Autonomy* Ephraim Nimni,Alexander Osipov,David Smith,2013 This book explores non territorial autonomy NTA an important modality of ethnic and religious diversity management It addresses issues such as the limits and possibilities of implementing NTA models in liberal democracies the ways in which NTA can serve the goals of European integration and the role of NTA in resolving territorial conflicts

The Series is a joint venture with the European Centre for Minority Issues ECMI <http://www.ecmi.de> These multi author works are the result of the Centrels cooperative research projects often lasting a number of years. The resulting books attempt to present a coherent and comprehensive picture of the area under investigation. The majority of countries in the former Eastern bloc feature multiethnic societies. Decentralization and the transition to a free market environment have made this characteristic of nation states more visible and have raised the claim for a proactive approach toward multiethnic community management **Index de Périodiques Canadiens**, 2002 **Slavic Review**, 2001 American quarterly of Soviet and East European studies varies **Minority Rights** Jay A. Sigler, 1983-12-02 The unprecedented mass movement of populations since World War II has increased tensions among groups of people by breaking down the homogeneity of older countries and increasing the fragility of newly independent states encompassing several minorities within their borders. These changes according to author Jay Sigler dictate the necessity of clarifying human and minority rights. He highlights the main points of minority rights, traces their history and demonstrates their distinctly modern features. Sigler considers the theoretical implications of minority versus individual and collective rights and examines the efforts in this area made by the United States, India, the United Kingdom, Belgium and the Union of Soviet Socialist Republics. Finally he proposes his own provisional theory of minority rights.
