**Efficient Home Cleaning** Sam Kl Riley, 2024-09-05 Keeping a clean and organized home is something that many of us strive for but it can often feel like a daunting task However with the right daily habits and routines in place maintaining a spotless home can become much more manageable and even enjoyable As someone who has struggled with keeping up with cleaning in the past I've found that incorporating simple and efficient cleaning habits into my daily routine has made a world of difference in the cleanliness and overall feel of my living space One of the key principles that I've found to be incredibly helpful is the idea of consistency Instead of trying to tackle all of the cleaning tasks at once breaking them up into smaller more manageable chunks can make a huge difference By dedicating just 15 minutes a day to cleaning you can stay on top of the mess and prevent it from piling up This approach not only makes cleaning feel less overwhelming but also ensures that your home is always ready for unexpected guests or last minute plans In my own experience I've found that starting the day with a quick tidy up session can set a positive tone for the rest of the day Spending just a few minutes putting away clutter making the bed and wiping down surfaces can make a big difference in how organized and clean your home feels Plus coming home to a tidy space at the end of a long day can be incredibly rewarding and calming Another tip that has been a game changer for me is to prioritize high traffic areas and frequently used spaces By focusing on the areas of your home that see the most use such as the kitchen living room and bathroom you can ensure that these spaces stay clean and inviting Simple tasks like wiping down countertops sweeping the floors and emptying the trash can make a big difference in maintaining a clean and welcoming environment for both yourself and your guests When it comes to cleaning products I've found that having a few key essentials on hand can make the process much more efficient Multi purpose cleaners microfiber cloths and a good vacuum cleaner are all must haves for keeping your home clean and tidy Investing in quality products that are effective and easy to use can save you time and effort in the long run Incorporating small cleaning tasks into your daily routine can also help prevent the need for deep cleaning sessions down the line By staying on top of things like dusting vacuuming and laundry on a regular basis you can avoid the buildup of dirt and grime that can make cleaning feel like a monumental task Plus the more frequently you clean the less time each individual task will take making it easier to fit into your busy schedule One tool that I've found incredibly helpful in staying organized

with my cleaning routine is a simple checklist By creating a list of daily and weekly cleaning tasks I can easily track what needs to be done and ensure that nothing falls through the cracks Checking off items as I complete them gives me a sense of accomplishment and motivates me to keep up with my cleaning habits Overall maintaining a clean and organized home doesn't have to be a daunting task By incorporating simple daily habits and routines into your life you can transform the way you approach cleaning and elevate your living space to new heights With just 15 minutes a day you can keep your home looking spotless and welcoming creating a peaceful and inviting environment for yourself and your loved ones *Arthur's Illustrated Home Magazine* ,1876 **Arthur's Lady's Home Magazine** ,1876 **Comfort** ,1898 *Lost Art Of House Cleaning* Christen Bruker,2021-03 So many of us have changed the way we're living and so many of us are spending more and more time in our homes whether we're isolating permanently or after our shift is done A clean home is more important than ever We need our homes clean for safety as well as for peace of mind It might seem like being at home so much means we have lots of time on our hands to clean Nothing could be further from the truth As we grasp at making new schedules educating our children at home popping into meetings at all hours of the day and night online you name it time is getting away from us If you need a quick solution for getting your home clean NOW this book will not let you down In this House Organizations book you will discover How to Clean Your House and keep it clean using easy Speed Cleaning Methods used by the professional The secrets of frustration free house cleaning The 15 step plan for fast and easy cleaning and organization 88 quick Cleaning Tips that can instantly improve your Home Cleaning system How to create a simple routine managed by a checklist that you repeat on a daily basis A few tips that will keep you motivated and consistent And so much more Whether you want your home to be safe as well as sparkle start a cleaning business prepare your home to rent or flip or help your house cleaner work most effectively for you this book will help you do it We will instill in you knowledge to last a lifetime so you can experience the joy and benefit of a clean and tidy home **Middle Class African Marriage** Christine Oppong,2023-07-05 In the 1970s among peoples of the third world migration paid employment and urban living had caused changes in domestic economies in decision making in households and in the sexual division of labour and power This was particularly so in areas formerly subjected to colonial domination and therefore the influence of European mores and institutions This book previously published in 1974 as *Marriage Among a Matrilineal Elite* this edition in 1981 provides one of the few detailed accounts of such changes by a writer who has lived the kind of life she describes that of the urban educated Akan of Southern Ghana people who have migrated from farming and fishing villages to Accra the capital to find employment in government institutions after protracted higher education often overseas The study is particularly interesting because it focuses upon people from an ethnic area practicing matrilineal descent and inheritance in which women and men have traditionally both worked in agriculture in which husbands and wives have customarily resided in separate houses affording both sexes considerable autonomy as spouses and in which women have held important political offices as well as sharing

responsibilities for maintenance of dependent children Akan women provide an important model of responsible energetic females who have in the past and to some extent in the present avoided the domestic trap of wifely dependence But as we read the trap is open to those who forsake traditional patterns of economic endeavour or whose resources vis vis their men folk are reduced The book was also a significant contribution to the comparative sociology of the family at the time providing an exercise in methodology in which the aim has been to evolve ways of documenting and comparing two major aspects of change in conjugal family relationships On one hand the division of labour resources and power between spouses the jointness or segregation of the conjugal role relationship and on the other the extent to which the conjugal family is a functionally discrete unit in a number of domestic activity areas in popular and ambiguous terms whether the family is extended or nuclear The use of sociological concepts developed in other areas of the world gives this book a significant position in the development of a cross culturally valid sociology of the family The subject matter and conceptual frameworks used here will thus be of interest to sociologists economists and anthropologists in general and to specialists in African and Black studies Women s Studies and Sex Roles in particular as well as to the male and female feminists around the world
