Online Hellenistic World Sources Coinage Ancient:

The Hellenistic World Peter Thonemann,2015 An accessible vivid and up to date student level introduction to the coinage and history of the Hellenistic world 323-31 BC **Philip V of Macedonia in Polybius' Histories** Emma Nicholson,2023 Philip V of Macedonia in Polybius Histories Politics History and Fiction offers a historiographical and literary study of Polybius' portrait of Philip V and aims to advance our knowledge of both the Macedonian king and the historian. It takes a chronological and thematic approach exploring how Polybius' political historiographical and didactic aims impact the king's depiction from beginning to end. The first half focuses on political and rhetorical aspects; it highlights the embedded Achaean perspective of the narrative and how this fundamentally shapes Philip's image; it re-evaluates key character-defining episodes such as the sack of Thermopylae and the attempt on Messene and it problematizes Polybius' claim that Philip became increasingly treacherous and tyrannical towards the Greeks after 215 BC. The second half explores how Polybius develops his interpretation of the king through ideological and literary means; it investigates how Polybius uses cultural politics to blacken Philip's image and justify the exchange of Macedonia and Rome as hegemonic powers in the Greek world; it rationalizes his use of a tragic mode for Philip's last years; examining the implications this styling has for our historical understanding of the king; and it considers how tensions between Polybius' narrative and commentary on Philip may be the result of his combination of historiographical and biographical modes of presentation. It finishes by re-situating Philip in the broader context of the Histories drawing comparisons between his portrait and that of other kings and leaders and discussing how kings are shaped by and contribute to the arguments in the Histories

A Cultural History of Money in Antiquity Stefan Krmnicek, 2021-03-11
The origins of the modern Western concept of money can be traced back to the earliest electrum coins that were produced in Asia Minor in the seventh century BCE. While other forms of currency—shells, jewelry, silver ingots—were in widespread use long before this, the introduction of coinage aided and accelerated momentous economic, political, and social developments such as long-distance trade, wealth creation, and the social differentiation that followed from that and the financing of military and political power. Coinage, though adopted inconsistently across different ancient societies, became a significant marker of identity and became embedded in practices of religion and superstition. And this period also witnessed the emergence of the problems of money inflation, monetary instability, and the breakup of monetary unions which have surfaced repeatedly in succeeding centuries. Drawing upon a wealth of visual and textual sources, *A Cultural History of Money in Antiquity* presents essays that examine

key cultural case studies of the period on the themes of technologies ideas ritual and religion the everyday art and representation interpretation and the issues of the age **Karia and the Dodekanese** Birte Poulsen,Poul Pedersen,John Lund,2021-01-21 Karia and the Dodekanese Vol II presents new research that highlights cultural interrelations and connectivity in the Southeast Aegean and western Asia Minor over a period of more than 700 years Throughout antiquity this region was a dynamic meeting place for eastern and western civilizations Modern geographical limitations have been influential on both archaeological investigations and how we approach cultural relations in the region Comprehensive and valuable research has been carried out on many individual sites in Karia and the Dodekanese but the results have rarely been brought together in an attempt to paint a larger picture of the culture of this region In antiquity the sea did not constitute an obstacle to interaction between societies and cultures but was an effective means of communication for the exchange of goods sculptural styles architectural form and embellishment education and ideas It is clear that close relations existed between the Dodekanese and western Asia Minor during the Classical period Vol I but these relations were evidently further strengthened under the shifting political influences of the Hellenistic kings the Roman Empire and the cosmopolitan late antique period The contributions in this volume comprise investigations on urbanism architectural form and embellishment sculpture pottery and epigraphy
