## Online Japans Border Issues Prospects Contemporary:

### **The Law of the Sea and Maritime Boundary Disputes in Areas of Hydrocarbon Potential** Vivek Chandra,2023-09-22

The United Nations Convention on the Law of Sea UNCLOS is hailed as one of the most significant multilateral legal agreements executed in the past few decades. However, its shortcomings are neither trivial nor inconsequential, especially regarding maritime boundary disputes involving hydrocarbon resources. This monograph examines the relationship between UNCLOS and maritime boundaries in five non-polar regions encompassing almost 90% of global unresolved disputes involving offshore hydrocarbon development. The regions which include the eastern Mediterranean, the Caspian Sea, the Persian Gulf, northeast Asia, and the South China Sea, were chosen for their oil and gas resources potential and recent military skirmishes that have the potential to lead to wider regional confrontations. The book addresses each region's maritime boundary status in the context of specific articles within UNCLOS that have been exploited by disputing states to justify their overlapping claims. The history and future applicability of multilateral Joint Development Area agreements for each region are evaluated for their potential to provide a cooperative solution to resolve ongoing tensions. Highlighting the limitations of current gun boat diplomacy, the monograph makes practical suggestions for new paradigms for resolving outstanding disputes, promoting lasting peace, and generating economic benefits resulting from resource development.

**Japan's Nationalist Right in the Internet Age** Jeffrey J. Hall,2021-04-07 Japan's nationalist right have used the internet to organize offline activism in increasingly visible ways. Hall investigates the role of internet mediated activism in Japan's ongoing historical and territorial disputes. He explores the emergence of two right wing activist organizations Nihon Bunka Channel Sakura and Ganbare Nippon which have played a significant role in pressure campaigns against Japanese media outlets, campaigns to influence historical memorials, and campaigns to assert Japan's territorial claim to the Senkaku/Diaoyu Islands. Taking a multi-disciplinary approach, he analyses how activists maintained cohesion, raised funds, held protests that regularly drew hundreds to thousands of participants, and used fishing boats to land activists on disputed islands. Detailing events that took place between 2004 and 2020, he demonstrates how skilled social actors built cohesive grassroots protest organizations through the creation of shared meaning for their organization and its supporters. A valuable read both for scholars seeking insight into the dynamics surrounding Japan's history disputes and territorial issues, as well as those seeking to compare Japanese right wing internet activism with its counterparts elsewhere.

**Immigration Governance in East Asia** Gunter Schubert, Franziska Plümmer, Anastasiya Bayok,2020-11-29 This book analyzes immigration policies in East Asia in the context of contemporary global migration flows and mobility. To assess how global norms of migration have impacted the East Asian migration region and explore regional migration trends, the book contains 13 case studies which investigate the regulation of immigration in China, Hong Kong, Japan, South Korea, and Taiwan. Three analytical strands, namely norm diffusion, identity politics, and citizenship, build the theoretical framework for the case studies which

investigate how regional and national norms discourses and institutions affect local communities and migration patterns In particular the book analyzes contemporary issues such as immigration policy reforms practices of inclusion and exclusion in local communities and discourses on multiculturalism and risk The book utilizes a comparative perspective which enables readers to reflect on the role of national identity international organizations and law public security concerns and labour market demands in the articulation and implementation of contemporary immigration policy in East Asia This book substantially complements the existing literature on immigration governance and interregional migration mobility in East Asia and will be of interest to academics in the fields of East Asian studies public policy immigration and migration studies and comparative politics **[China's 'Peaceful Rise' in the 21st Century](#)** Sujian Guo,2016-12-05 China s rapid development has attracted worldwide attention in recent years The implications of China s rise from its expanding influence and military muscle to its growing demand for energy supplies are heatedly debated in the international community Jintao s officially proposed concept of peaceful development has become the underlying principle behind Chinese foreign policy under the fourth generation leadership However is peaceful development possible in the broad context of domestic and international development This comprehensive and timely study examines the conditions and challenges of China s peaceful rise and addresses the central question of whether it is possible for China to rise peacefully in the 21st century bearing in mind the implications for China and the rest of the world It is ideal as a supplementary course book in foreign policy Asian politics and development
