THE PIONEER OF DISAPPEARING MESSAGES

READING COMPREHENSION

Snapchat, founded in 2011 by Evan Spiegel, Bobby Murphy, and Reggie Brown, is a social media platform known for its disappearing messages. Its primary feature is the "Snap," which is a photo or video that disappears after being viewed. At the heart of Snapchat are "Stories," which are a series of Snaps that users can view in a chronological order. Snapchatters can also send Snaps directly to friends, and recipients can view the content for a limited time before it disappears. This feature has given users a sense of privacy and has made Snapchat a popular platform for sharing candid moments. In addition to its disappearing messages, Snapchat has also introduced the "Stories" feature, which allows users to share a series of photos or videos that disappear after 24 hours. This feature has become a major part of the app's functionality and has helped it maintain its popularity. Snapchat's influence extends beyond just social media; it has also been used in marketing and advertising. Many brands have created Snapchat filters and lenses to promote their products or services. Additionally, Snapchat has been used in journalism and news reporting, with reporters using the app to share exclusive content and connect with their audience. Despite its success, Snapchat has faced challenges in the competitive landscape of social media. It has had to constantly innovate and introduce new features to keep up with other platforms like Instagram and TikTok. However, its focus on ephemeral content and privacy has helped it maintain a loyal user base. Snapchat's impact on the way we communicate and share content is undeniable, and it continues to evolve as a leading platform in the digital age.

Reproducible worksheets include rhyming, writing poetry, cloze sentences, riddles, and chunking. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy.
