The Deal ,2010 Adoption of Smart Home Speakers Jakob Summer,2023-04-05 Master s Thesis from the year 2021 in the subject Business economics General grade 1 00 Management Center Innsbruck Management Center Innsbruck language English abstract Due to technological progress smart speakers have entered the market in recent years and have already been adopted by certain parts of the population Although several studies have tried to explain the crucial factors for smart speaker adoption there is still no common understanding and there are significant gaps in the literature analysing the adoption of smart speakers at their current technical level in specific countries Therefore this study aims to identify factors influencing the intention to use smart speakers in Germany By reviewing the literature on innovation acceptance with an emphasis upon adoption studies of voice controlled technologies the research model of this thesis was developed The hypothesized effects of the twelve constructs in the model were tested using an online survey with questionnaires as data collection instruments among 233 German non adopters The study found that certain constructs specifically enjoyment privacy concerns usefulness and social influence were significant predictors of intention to use System quality and smart speaker complementarity with apps and services additionally emerged as predictors of perceived usefulness Results suggest that companies should pay particular attention to these factors when marketing and further developing smart speakers The factors identified might further influence the acceptance of similar IT products

Big or Smart Data? Recent trends in Data Science for sales and marketing Julia Ertel,2022-05-09 Bachelor Thesis from the year 2021 in the subject Business economics Miscellaneous grade 1 0 Pforzheim University language English abstract Big data is getting larger the pressure in the market to use the existing data is getting stronger and therefore also the number of companies that address the topic of data science increases This dissertation focuses on identifying big or smart data science trends in marketing and sales within the consumer packaged goods industry The objective of this research is to address actual opportunities around data science for the selected focus area The following

research project analyzes those opportunities and identifies nine data science trends. Via in depth interviews the expert's experiences and difficulties with data science are questioned. Emotions that arise through the interaction with this science are recognized and potentials for improvements are discussed. Subsequently central meaningful quotations are analyzed with Mayring's qualitative content analysis reformulated into condensed codes and summarized through eighteen overarching categories. The general findings of this analysis include the necessity of smart data insights within this low margin industry, the dependence on consultancy support due to knowledge gaps, expandable engagement in the B2B environment, the promotion of data thinking and acting, the merge of sales and marketing for data science knowledge generations and the extension of data science knowledge to maintain competitive advantage within the market for the long run. The improvement proposals consist mainly of automated data cleaning, intelligent algorithms, data handling, knowledge development, data democracy and knowledge combinations in form of project dependent focus teams to broaden data science applications within the industry.

OECD Information Technology Outlook, 2010 Challenges of Digitalization for the Music Industry Moritz Müller, 2013-08-08 Seminar paper from the year 2013 in the subject Business economics, Offline Marketing and Online Marketing, grade 1.3, University of Münster, course Digital Media Marketing Seminar, language English, abstract.

This seminar paper analyses how the digitalization has changed the general set up of the music industry. By analyzing studies and data, the paper illustrates several challenges that influenced record sales. Considering the different type of players in the music industry, record labels, online and physical retailers and artists, this paper will only discuss the challenges and effects of the digitalization on the major record labels. The challenges of digitalization for artists will not be covered in this paper. Digital music actually enhances the chance of being discovered and for reaching a larger audience. Ankeny 2012. In this sense the digitalization is an opportunity rather than a challenge for artists. This also applies for online retailers such as iTunes and Amazon. Since digital music does not require physical storage, online retailers can offer music at almost zero costs. Thus online retailers benefit from the digitalization of music. Physical retailers presumably lose revenue because of the digitalization of music. However, their situation will not be discussed further in this paper. The major record labels are highly vertically integrated. Neff and Blömer 2003, p. 104. Besides managing artists, the recording companies are also in charge of the publishing and copyrights of music. Additionally, they have enormous production resources and strong distribution networks. This gives the major record labels a significant competitive advantage. However, this advantage was partly ruined by the digitalization. In this paper, digitalization of the music industry is limited to the impact of MP3s on the industry. The introduction of the CD as the first phase of digitalization is not further discussed. Chapter two deals with the challenge of piracy for the record companies. In chapter three, the increased competition as a challenge will be described. The change of the product music is discussed in chapter four. Chapter five presents the changing consumer behavior as the final challenge for the major record labels. Every chapter is concluded by presenting the reactions of the record labels to the respective chal

lenges The paper is rounded off by a conclusion in which the main points are summarized and a discussion of future strategies for the record labels *The Times Index* ,2013-02 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement **Encyclopaedia Britannica Book of the Year 2010** ,2010 **Britannica Book of the Year** ,2012 *OECD Internet Economy Outlook* ,2012 Qué pasa ,2011 **The Parliamentary Debates (Hansard)**.
