Conspiracy Theories And Stuff Victor Grant-Lawrence, Regulating Gig Work Joellen

Riley Munton, Michael Rawling, 2023-12-12 Digital revolution demands new approaches to regulating work The Uberisation of work is not in reality a new phenomenon It reintroduces the practices of on demand engagement of labour common prior to the development of continuing employment What is new however is the capacity of digital technology to engage labour in ways that avoid characterisation as employment according to the legal tests developed in the 20th century This book tackles the challenge of ensuring that the emerging tribes of gig workers in labour markets across the globe are afforded decent standards of work This book discusses how to provide decent conditions and safe working standards for on demand workers engaged through digital platforms It interrogates the rise of gig work and the legal strategies that might be engaged to deal with the risk that on demand work will fall and remain outside of employment protections It draws on observations of practices across the globe but focusses particularly on regulatory solutions developed in Australia The book will be a useful reference to policy making and legal reforms to address vulnerabilities of gig workers      *Research Handbook on*

*Competition and Technology* Pier L. Parcu, Maria A. Rossi, Marco Botta, 2025-05-14 This Research Handbook offers a thorough analysis of the complex relationship between digital technologies competition and market dynamics from a multidisciplinary perspective Leading specialists in the field explore the evolution of competition enforcement in response to technological change and examine its intersections with other policy areas such as data protection intellectual property and labour law

*Big Brain Revolution* Dr Michelle Tempest, 2019-12-12 Is Artificial Intelligence AI changing the world Is AI updating the human brain Can AI help to solve complex problems baffling scientists and politicians The answer is yes This book offers unique insights into the consequences of mixing psychology with technology It takes you on a journey of discovery stripping AI and the human brain back to basics It's not academic keeps knowledge simple and questions if humans can be manipulated by machines Big data is already monitoring human movements So imagine future powers of information gathering on an even bigger scale including brain waves emotions and inner thoughts AI could personalise messages back to the brain and update love desires and our destiny Now is the time to be curious and to question We must not hesitate History will not forgive us This is our common purpose Our mission is to bequeath ethical AI advancements to the next generation Humility tells us how working together is the secret sauce to guide AI to help mankind It must help untangle collective problems such as climate change bigger than the individual This book is for everyone So read it pass it on and discuss how AI is impacting your brain and our futures      *Urbanization and Development* , 2016 The analysis of urban development of the past twenty years presented in this maiden edition of the World Cities Report shows with compelling evidence that there are new forms of collaboration and cooperation planning governance finance and learning that can sustain positive change The Report unequivocally demonstrates that the current urbanization model is unsustainable in many respects It conveys a clear message that the pattern of urbanization needs to change in order to better respond to the challenges of our time to address issues such as inequality climate change informality insecurity and the unsustainable forms of urban expansion      **Rules on**

**Digital Trade in the Light of World Trade Organization Agreements** Asif Khan, 2023-12-14 Doctoral Thesis Dissertation from the year 2023 in the subject Business economics Trade and Distribution language English abstract This doctoral dissertation deals with rules on digital trade in the light of WTO agreements Digital trade has brought about profound changes in the international trade framework Traditional trade which primarily involved the exchange of physical goods has now expanded to encompass a wide range of digitally delivered services online transactions and data flows This transformation has been driven by advancements in technology and the increasing interconnectedness of the global economy The digital economy encompasses various digital technologies and platforms and has become a significant driver of economic growth and innovation It allows businesses to reach international markets more quickly and efficiently transcending geographical barriers The internet mobile devices cloud computing and artificial intelligence have facilitated this digital transformation These technologies enable seamless communication data storage and processing automation and personalised services revolutionising how businesses operate and engage in international trade Digital trade has created new opportunities for businesses of all sizes Small and medium sized enterprises have benefited from the ability to access global markets through digital platforms and e commerce These platforms provide a means for Small and medium sized enterprises to connect with potential customers worldwide establish their presence and market their products and services without needing a physical presence in foreign markets This has lowered entry barriers and empowered Small and medium sized enterprises to participate in global value chains expanding their reach and contributing to economic growth One of the notable developments in the digital trade era is the rise of platform based businesses These platforms such as e commerce marketplaces ride sharing services and online payment systems act as intermediaries connecting buyers and sellers across borders They facilitate transactions provide infrastructure and services and enable businesses to expand their customer base globally Platforms have become influential players in international trade shaping market dynamics and redefining traditional trading system
