Turow, 2011-09-22 *Media Today* puts students at the center of the profound changes in the twenty first century media world from digital convergence to media ownership and gives them the skills to think critically about what these changes mean for the role of media in their lives. *Media Today* Fourth Edition is built around four key concepts. A media systems approach allows students to understand the interconnected cultural political and economic forces that shape media they encounter every day. Unique insights into media trends give students an insider's perspective on how media industries are responding to changes from globalization to social networking. Focus on digital convergence shows in each chapter how digital media is transforming traditional mass media such as newspapers magazines and television. A media literacy goal encourages and builds critical skills to make students more informed and engaged citizens in our media driven society. Completely revised with updated examples new case studies and new online video resources the 4th edition of *Media Today* connects the latest trends debates and technologies to the history of media highlighting the impact and meaning of today's changes to the media landscape especially how traditional industries have blurred together with digital convergence. Additional learning resources including a new set of online video resources interactive quizzes study resources and instructor guides are available on the free companion website at [www.routledge.com/textbooks/mediatoday4e](http://www.routledge.com/textbooks/mediatoday4e)

*Converging Media* John Vernon Pavlik, Shawn McIntosh, 2016 Placing convergence at the center of the discussion this text uses the technologies we employ every day to explain our current media environment and to project where we might be headed. Rather than discussing each media industry in isolation *Converging Media* shows how each branch of media print visual and audio relates to and influences the others

*The Media in Your Life* Jean Folkerts, Stephen Lacy, 2001 With a strong emphasis on media convergence throughout this book helps readers develop a system wide view of the interacting social historical economic and technological forces at work in today's rapidly evolving mass media. Written by two highly regarded scholars and teachers this book goes beyond other textbooks to help readers understand where how and why they fit into the contemporary media environment. Too often mass communication texts rely only on popular publications or on academic research. In this interactive text they have combined the concrete practice of journalism with empirical research enabling students to comprehend the impact of the dynamic media that are an integral part of our lives today. Folkerts and Lacy guide readers through today's whirlwind of mass communication by providing them with the information and critical thinking skills necessary to consider objectively the media and its roles in their lives.
