Microbiology Gerard J. Tortora, Berdell R. Funke, Christine L. Case, 2010 This 1 selling non majors microbiology book is praised for its straightforward presentation of complex topics, careful balance of concepts and applications, and proven art that teaches. The Tenth Edition meets readers at their respective skill levels. First, the book signals core microbiology content to readers with the new and highly visual Foundation Figures that readers need to understand before moving forward in a chapter. Second, the book gives readers frequent opportunities for self assessment with the new Check Your Understanding questions that correspond by number to the chapter Learning Objectives. Then a new visual learning orientation includes an increased number of the popular Diseases in Focus boxes, newly illustrated end of chapter Study Outlines that provide students with visual cues to remind them of chapter content, and new end of chapter Draw It questions.
