According to the author in Australia men drink alcohol as a mark of masculinity and women take care of drinking men as a part of normative femininity And while research on alcoholics and alcoholism is common very few studies consider the lives of the women who are married to alcoholics Here Zajdow details and explores the lives of such women who belong to Al Anon where they may share their experiences and offer their stories in a nonthreatening and supportive environment The author presents the narratives of these women in the context of her analysis of the self help group to demonstrate how people construct and reconstruct their lives as coherent stories about themselves and to show how these self stories can be changed and reconceptualized within the context of the group Unique in its examination of self stories offered within a self help group this book challenges sociological knowledge about the way these mutual aid groups operate as communities of interest and help Zajdow begins by laying the groundwork through a discussion of the professional and lay discourses on women s relationships to alcoholic men She then provides the basis for using self stories to examine a group of people the individuals in the group and the behavior of the group in general A history of Al Anon as a self help group is also detailed and the author compares the Australian meetings to meetings in other parts of the world The stories themselves are then examined and discussed in terms of how they relate to group processes and individual change through Al Anon Tracing the way that these women move from a place of despair to one of hope and meaningful change this also represents a sociological exploration of gender families and communities Readings ,1998 **The Publishers Weekly** ,1997 *Addiction* Howard Padwa,Jacob Cunningham,2010-01-18 A reference guide that answers the questions people have about addiction and addictive behaviors

Broadhurst,2021-04-26

As we become more and more of a global trading world the challenges of leading and managing within this turbulent environment and its associated complex interconnected markets and disconnected relationships are indisputable so just how far can any change requirements be practically engaged with whilst also keeping the employee at the organisation s central core Today s business world cries out for people who can lead with a cross cultural global perspective who can lead from the heart as well as the mind and address and manage problems on not just an integrated local level but also with a healthy holistic perspective The subject of spirituality has long been discussed within academic research but there still seems to be a misunderstanding and stagnation of both its real meaning and application amongst business academics the population and organisations alike This book aims to provide a realistic message to help those who are looking for some answers for those who are looking for a way to advance their own skill set and progress both their careers and the organisation s current standing to move from being confused and insecure about strategies and tactics to positively contributing to not only their own but also to the employees well being and the business s overall purpose and intention By basing the content upon real and relevant interesting modern day perspectives applications requirements opportunities and benefits all combined into a manual for thought and a practical framework for action this book will significantly and realistically move the subject of spirituality forward This book will be of interest to researchers academics and students with a special interest in the positive influence of spirituality within the workplace and everyday healthy living **Subject Guide to Books in Print** ,2001

spiritual awakening Donald Altman author of Living Kindness The face of addiction and alcoholism is recognizable to many it may be a celebrity a colleague or even a loved one And though the 12 step program by itself can often bring initial success many addicts find themselves relapsing back into old ways and old patterns or replacing one addiction with another Working with the traditional 12 step philosophy Darren Littlejohn first shares his own journey and how he came to find the spiritual solace that has greatly enhanced his life in recovery Then he details out how his work integrating Buddhism into the traditional 12 step programs validates both aspects of the recovery process With accessible prose and in depth research he illustrates how each step such as admitting there is a problem seeking help engaging in a thorough self examination making amends for harm done and helping other addicts who want to recover fits into the Bodhisattva path This integration makes Buddhism accessible for addicts and the 12 steps understandable for Buddhists who may otherwise be at a loss to help those in need The 12 Step Buddhist is designed to be a complimentary practice to the traditional 12 step journey not a replacement While traditional programs help addicts become sober by removing the drug of choice and providing a spiritual path they rarely delve deep into what causes people to suffer in the first place In this unique synthesis of the traditional 12 Step model and the liberating wisdom of Dharma Mandala Magazine addicts can truly find a deep spiritual liberation from all causes and conditions of suffering for good **Al-Anon's Twelve Steps & Twelve Traditions** Al-Anon Family Group Headquarters, Inc,1981 Twelve steps and 12 traditions are for people whose lives have been or are being affected by alcoholism
