Portable Appliance Testing Made Easy Seggy Segaran, 2022-06-21 This is a simple guide to maintaining appliances in low risk environments like offices shops hotels and nursing homes It is also a guide for people working from home so that they can continue to make sure that any device they use for work is safe to use My challenge has been to decide what to leave out with reference to our more comprehensive book Handbook of Portable Appliance Testing As this book is primarily aimed at low risk environments a vast array of

information relating to PAT Testing adaptors has been left out as well as detailed references to the legislative requirements I think this book has hit a nice balance between the information that is freely available on line and attending a PAT training course While the course remains a necessity for those wanting a practical session and a certificate this book helps to demystify the subject and gets you started quickly *The School Premises Handbook: a guide for premises staff, business managers, headteachers and governors* Jo Marchant MBE, 2023-06-23 A handbook to inform school premises staff business managers headteachers and governors in England of their legal responsibilities around buildings compliance As well as exploring the impact of school buildings and grounds on student learning The School Premises Handbook covers the working environment fire safety health and safety statutory compliance duties planning for maintenance risk assessments energy efficiency environmental sustainability and managing and developing a premises team Jo Marchant a highly experienced head of estates introduces key legislation further information sources and an action checklist New premises staff will find a wealth of information from what to do on their first day in the role to planning the year long cycle of maintenance activities More experienced premises staff will also gain plenty of useful insights School business managers will find advice on managing premises staff and developing their school estate Headteachers will be informed of their responsibilities for ensuring their schools are safe and compliant And governors and trustees will learn how to hold school leadership to account
