**Research in Education**, 1971 **Resources in Education**, 1971 **Patrick White's Fiction** Carolyn Bliss, 1986-08-18 This study examines all eleven novels of Patrick White the great Australian writer and Nobel Prize winner It begins from the observation that major characters in his novels undergo a necessary redemptive or facilitating failure This failure paradoxically enables their success within the context of what White has called the overreaching grandeur which circumscribes human existence Evolution of this theme is traced through forty years of White's fiction from his first novel Happy Valley 1939 to his most recent work The Twyborn Affair 1979 Comprehensive in its scope this book is informed by a thorough knowledge of White's poetry plays short stories and autobiography as well as his novels It is also unique in

stressing that White's world view derives from a distinctly Australian experience. It thus links him to a country in which he is deeply rooted and to a heritage he continued to affirm.      **Reference Guide to Short Fiction** Thomas Riggs, 1999
