**What Really Causes Needless Casualties of War?** Jonathan Paul Brenneman, 2017-08-23 Has God given his people authority over evil powers that oppress cities and nations Or have we only been authorized to cast demons out of individuals A problem came to the forefront in Christian circles in the 1990s Believers were suffering devastating demonic attack after attempting to assault regional principalities As a result of these negative and even scary experiences many concluded that God never gave us authority over these evil powers in the first place Jonathan Brenneman re examines that assessment While drawing from the lessons learned by previous leaders of the spiritual warfare movement he also challenges many deep rooted assumptions He brings to light serious scriptural problems with the position that Christians only have limited authority over Satan s power Rather than dismissing the problem of needless casualties he offers a re diagnosis of the cause Readers are saying this teaching has removed the fear and confusion surrounding the topic of spiritual warfare It also includes Modern day testimonies of overcoming severe demonic attack and the lessons learned Scriptural and historical examples of a single righteous person displacing a principality Testimonies of God s kingdom advancing regionally as Christians confront and trample on principalities How to trample on principalities Several problems with trying to distinguish between evil spirits in the second heaven and those on earth Why there are no levels of authority over Satan for Christians only all authority How Christians sometimes mentally acknowledge gospel truths but don t act accordingly How we leave a gospel position and thus become vulnerable to attack by trying to break the devil s power Why the devil has no legal rights and the difference between a legal right and a foothold How the legal approach to the demonic realm makes us vulnerable to attack How identificational repentance initiatives although bringing healing and reconciliation have been misunderstood How fear can make us vulnerable to demonic attack How to avoid the trap of practicing the presence of demons Why a heavy spiritual atmosphere is a lie Why heavy emphasis on amassing a spiritual army has become unbalanced and falls short of scripture Lone rangers of the Bible Why we should reconsider warnings about mocking Satan Should we bind territorial spirits Is our sword any different than the sword of the Lord What Really Causes Needless Casualties Of War is practical and encouraging rooted in both scripture and experience Stimulating fresh thinking it leads to a renewed vision for what God is able to do on the earth through Christ s body the church

how it might have been different had General Patton been allowed to fight An interview with a doctor who came here from Yugoslavia provides details about how life was there The few veterans who were there and still living will recall many of the events in the book The book is written in the memory of the soldiers who died needlessly or were wounded because of the failure of command Also this book is meant to be a lasting tribute to a man who was the true warrior the best general we have ever produced and the general who the Germans feared the most General George S Patton Jr Commander of the Third United States Army

**War and Television** Bruce Cumings, 1992 Television has come to play an ever more decisive role in the preparation and planning of war as well as in its execution In *War and Television* Bruce Cumings carefully explores the history of television's relationship to US warmaking since World War II up to and including its presentation of the carnage in Kuwait and Iraq Cumings examines Vietnam long thought to have been the first television war but finds that characterization more apt for the Gulf conflict which was fought through packaged by and sold to the public on television At the centre of the book is the extraordinary tale of Cumings's own experience as historical consultant to a Thames Television production *Korea The Unknown War* and his subsequent trials with the Public Broadcasting System when the film was released for North American distribution Through the alternately funny and tragic story of the struggle with an assortment of media executives retired soldiers bureaucrats from both Koreas

and various public figures including a hilarious account of an interview with Henry Kissinger Cumings shows how the film was shaped by media managers on both sides of the Atlantic to conform to prevailing views of a war that few in the United States or Britain wish to remember with anything approaching accuracy Today there is no shortage of prognostications grim or otherwise on the role of television But there are few serious studies of the medium s everyday operations let alone of its place in politics and warfare With insight and clarity Bruce Cumings provides that much needed analysis This is a vital book for those who want to understand how and for whom television works and a sobering one for anyone whobelieves the medium can be used for radical ends
