Michaela Dixon, Doreen Crawford, Debra Teasdale, Jan Murphy, 2009-03-16 Nursing the Highly Dependent Infant or Child is an accessible and clinical guide to the caring for the acutely ill child. It provides guidance on the specific nursing skills required to care for children and infants who require a step up level of care from those on the general paediatric ward or a step down level of care on discharge from neonatal or paediatric critical care facilities. The book follows a general systems approach covering themes such as respiratory care, renal care and cardiac care as well as covering specialities such as neuro trauma, burns and transportation of the acutely ill infant or child. Other areas explored include pain and sedation monitoring and meeting the nutritional needs of the highly dependent child.
