**History of Education** Eckhardt Fuchs, Eugenia Roldán Vera, 2019-05-25 This edited volume reflects on how the transnational features in education as well as policies and practices are conceived of as mobile and connected beyond the local Like globalization the transnational is much more than a static reality of the modern world it has become a mode of observation and self reflection that informs education research history and policy in many world regions This book examines the sociocultural project that the transnational turn evident in historical scholarship of the last few decades represents and

how a transnational history shapes how historians construct their objects of study It does so from a multinational perspective yet with a view of the different layers of historical meanings associated with the concept of the transnational Schulbuch als Mission Eckhardt Fuchs, Steffen Sammler, Kathrin Henne, 2025-06-16 Das Georg Eckert Institut wurde 1975 durch das Land Niedersachsen mit dem Auftrag gegründet internationale Schulbuchforschung durchzuführen und Empfehlungen für Bildungspolitik und Verlage zu erarbeiten Seine Geschichte begann allerdings schon 1951 als Georg Eckert an der Kant Hochschule in Braunschweig das Internationale Institut für Schulbuchverbesserung ins Leben rief um damit einen Beitrag zur internationalen Verständigung zu leisten Von Anfang an bildete dafür die Schulbuchbibliothek die zentrale Grundlage Heute umfasst die Forschungsbibliothek des GEI die weltweit größte internationale Sammlung von geistes und sozialwissenschaftlichen Lehr und Lernmaterialien Das Buch das hier in 2. bearbeiteter Auflage vorliegt zeigt was das GEI für die Schulbuchrevision geleistet hat und wie es maßgeblich zur Entwicklung der Schulbuch und Bildungsmedienforschung beigetragen hat Dieses wissenschaftliche Feld nimmt in der Gegenwart neben Schulbuchern auch digitale Bildungsmedien und die Methoden ihrer Erforschung in den Blick **(Re)Constructing Memory: Education, Identity, and Conflict** Michelle J. Bellino, James H. Williams, 2017-02-08 How do schools protect young people and call on the youngest citizens to respond to violent conflict and division operating outside and sometimes within school walls What kinds of curricular representations of conflict contribute to the construction of national identity and what kinds of encounters challenge presumed boundaries between us and them Through contemporary and historical case studies drawn from Cambodia Egypt Northern Ireland Peru and Rwanda among others this collection explores how societies experiencing armed conflict and its aftermath imagine education as a space for forging collective identity peace and stability and national citizenship In some contexts the erasure of conflict and the homogenization of difference are central to shaping national identities and attitudes In other cases collective memory of conflict functions as a central organizing frame through which citizenship and national identity are re constructed with embedded messages about who belongs and how social belonging is achieved The essays in this volume illuminate varied and complex inter relationships between education conflict and national identity while accounting for ways in which policymakers teachers youth and community members replicate resist and transform conflict through everyday interactions in educational spaces *Multiple Connections in European Cooperation* Kiran Klaus Patel, Wolfram Kaiser, 2019-07-09 International organizations are ubiquitous in contemporary Europe and the wider world This book is the first systematic assessment of the interactions of the European Communities EC with other Western organizations like NATO the OECD and the Council of Europe for the period from the late 1960s to the early 1990s Based on fresh archival research its various contributions explore forms of co operation and competition between these forums and thus seek to provincialize and de centre the role of the predecessors of today's European Union Drawing on examples from a diverse set of policy fields including human rights the environment security culture and regional policy the book argues that

inter organizational dynamics are crucial to understand why the EC became increasingly hegemonic among the organizations active in governing Europe In other words the EU would not be what it is were it not for the dynamics analyzed in this book This book was originally published as a special issue of the European Review of History     **The Palgrave Handbook of Textbook Studies** Eckhardt Fuchs, Annekatrin Bock, 2018-04-04 This volume examines the present status and future trends of textbook studies Cutting edge essays by leading experts and emerging scholars explore the field s theories methodologies and topics with the goal of generating debate and providing new perspectives The Georg Eckert Institute s unique transdisciplinary focus on international textbook research has shaped this handbook which explores the history of the discipline the production processes and contexts that influence textbooks the concepts they incorporate how this medium itself is received and future trends The book maps and discusses approaches based in cultural studies as well as in the social and educational sciences in addition to contemporary methodologies used in the field The book aims to become the central interdisciplinary reference for textbook researchers students and educational practitioners     Netzwerke der Kulturdiplomatie Romain Faure, 2015-06-16 Können Geschichtsschulbücher zu einer Annäherung der Völker Europas beitragen Nach dem Zweiten Weltkrieg wurde diese Frage vielerorts positiv beantwortet sodass zahlreiche grenzübergreifende Schulbuchgespräche zustande kamen In seiner Studie liefert Romain Faure die erste systematische Kartographie der internationalen Schulbuchrevision in Ost und Westeuropa zwischen 1945 und 1989 Er zeigt dass es neben den bekannten Schulbuchkommissionen zwischen der Bundesrepublik und Frankreich bzw Polen etliche bisher unerforschte Revisionsprojekte gegeben hat Zugleich nimmt er die Akteure der Schulbuchgespräche in den Blick und zeichnet ihre dichte Vernetzung nach Er legt dar dass die Revisionsdiskurse und praktiken im geteilten Europa breit zirkulierten und auf bisweilen überraschende Weise konvergierten Dabei berücksichtigt er stets den vielschichtigen Kontext der Ost West Konfrontation und der verschiedenen europäischen Integrationsprozesse und leistet somit einen originellen Beitrag zur Geschichte der europäischen Kulturdiplomatie nach 1945
