From the Authors Why We Wrote This Book It is not surprising that in 25 years best practices and fantastic ideas of how to use Cognos TM1 have evolved For many business problems excellent solutions already exist We participated in this development process and learned from experienced people But knowledge about Cognos has been like a patchwork Only a few sites and communities exist and most experience has been gained by intuition and trial and error Every novice has to go the hard way and build solid knowledge from various more or less trustworthy sources It often takes years to become an expert We have felt this ourselves to train our colleagues in the secrets of Cognos TM1 takes time and effort Our intention is to increase the speed of the diffusion of Cognos TM1 into the business world For this of course marketing is necessary but good and comprehensive knowledge is more important So we want to provide everything that is necessary to work with Cognos TM1 effectively or at least what we think is necessary to work with it The obvious question is why hasn't there been a book about Cognos TM1 before now Perhaps Cognos TM1 has been a tool for insiders You definitely need critical mass for a book project However with Cognos TM1 becoming part of the IBM software family the time is right the first comprehensive book is now available

Who This Book Is For Who should read this book Everybody who is interested in increasing their company's performance can profit from it External and internal consultants in particular will find a broad range of solutions Do you already work with Cognos TM1 Do you want to improve your existing applications You can find lots of practical tips and tricks for projects and your daily work in this book If you are a consultant you can find ideas to improve your service offerings Are you an implementer or a so called end user Although we provide concrete implementation advice our conceptual proposals help users to understand better what is possible with Cognos TM1 This facilitates the

communication between the user and the developers Perhaps you plan to use Cognos TM1 or are you simply interested in the core concepts of Cognos TM1 You can see what is possible with a modern multidimensional solution This Book Will Help You Why should you read this book We are convinced that you will find what you are searching **SAP BW Certification** Catherine M.
