Anxiety Relief Review Open Now:

Cognitive and Affective Factors in Relation to Learning Mikaela Nyroos, Johan Korhonen, Riikka

Mononen, 2022-11-10 Both domain general e.g. working memory executive functions and domain specific e.g. number processing phonological processing cognitive factors have been found to predict learning in different age groups. Likewise research has shown that various affective factors such as different emotions e.g. anxiety self concept and interest need to be considered when investigating individual differences in learning. However few studies have investigated both cognitive and affective factors simultaneously in relation to learning. In particular there is a lack of studies investigating the interplay i.e. moderation and mediation between cognitive and affective factors on learning. The goal of this Research Topic is to deepen our knowledge on the relations between learning and both cognitive and affective factors in different age groups. We aim to provide a broad scope of emerging areas in research on cognitive and affective factors especially related to academic learning e.g. mathematics reading and other school subjects. Studies focusing simultaneously looking at the interplay of these constructs as well as longitudinally are of great interest. Further we are interested in innovative study designs and recent advances in methodology in this field. To promote quality education for all and equity in education cognitive and affective factors related to aspects of learning ranging from pre school to tertiary provision and inclusion of individuals with special educational needs are of interest.

Today's Medical Assistant Kathy Bonewit-West, Sue A. Hunt, Edith

Applegate, 2012-10-04 Bringing together the clinical know how of Kathy Bonewit-West, the administrative expertise of Sue Hunt and the anatomy and physiology knowledge of Edith Applegate, this unique hands on text guides you through the medical knowledge and skills you need to succeed in today's fast paced medical office. The latest standards and competencies for the medical assistant have been incorporated into this new edition along with expanded coverage on important topics such as nutrition, the electronic medical record, ICD 10, emergency preparedness and disaster planning, time management and computerized prescription refills. Consistent meticulous coverage throughout the main text, IRM, SG, DVDs, Evolve and more provide reliable content and unparalleled accuracy. Over 90 procedural videos on DVD and online provide a visual representation of important procedures. Expanded Student Evolve site contains all animations, games such as Quiz Show and Road to Recovery, drag and drop exercises, Apply your Knowledge exercises, Prepare for Certification exercises, matching exercises and other helpful activities such as blood pressure readings, determining height and weight and drawing up medication. What Would You Do? What Would You Not Do? boxes and responses offer applications of real life case studies. Clear and concise Anatomy and Physiology coverage covers the basics of A/P and eliminates the need for a separate A/P text. Content updates reflect the latest competencies for medical assistants and ensure you have the most current information on the newest trends and updates in the medical assisting world. 8th grade reading level makes material approachable and easy to understand. New chapter on Emergency Preparedness offers a well rounded perspective on what to do in specific

emergency situations New OSHA Bloodborne Pathogens video improves your understanding of personal safety following the OSHA standards Pronunciation section in the Terminology Review gives you confidence with pronunciation and medical knowledge Application to EMR where appropriate prepares you for the real world by dealing with electronic medical records
