**Electromigration in ULSI Interconnections** Cher Ming Tan, 2010 Electromigration in ULSI Interconnections provides a comprehensive description of the electro migration in integrated circuits. It is intended for both beginner and advanced readers on electro migration in ULSI interconnections. It begins with the basic knowledge required for a detailed study on electro migration and examines the various interconnected systems and their evolution employed in integrated circuit technology. The subsequent chapters provide a detailed description of the physics of electro migration in both Al and Cu based Interconnections in the form of theoretical experimental and numerical modeling studies. The differences in the electro migration of Al and Cu based interconnections and the corresponding underlying physical mechanisms for these differences are explained. The test structures testing methodology, failure analysis methodology and statistical analysis of the test data for the experimental studies on electro migration are presented in a concise and rigorous manner. Methods of numerical modeling for the interconnect electro migration and their applications to the understanding of electro migration physics are described in detail with the aspects of material properties, interconnection design and interconnect process parameters on the electro migration performances of interconnects in ULSI further elaborated upon. Finally the extension of the studies to narrow interconnections is introduced and future challenges on the study of electro migration are outlined and discussed.

*Device Electronics for Integrated Circuits* Richard S. Muller, Theodore I. Kamins, 1977 Focusing specifically on silicon devices the Third Edition of Device Electronics for Integrated Circuits takes students in integrated circuits courses from fundamental physics to detailed device operation. Because the book focuses primarily on silicon devices each topic can include more depth and extensive worked examples and practice problems ensure that students understand the details.
