Ettema,Terrence N. Davidson,1980   *Thinking Like a Human* David Weitzner,2025-05-13 A bright and timely book that celebrates the value of the human mind AI is at the forefront of everyone s minds from students and artists to CEO s and service workers But what exactly is AI and how does it influence our everyday lives And more than that what does it mean for our future Is there a way for us to retain our humanness in a world ever reliant on tech This groundbreaking book argues that the key technology we use to make strategic political and ethical

decisions is flawed As we race headlong into a future where we outsource all of our problem solving to artificial intelligence the greatest threat to humanity is not superintelligent machinery but a lack of trust in the power of our own minds This book offers a new way forward what Dr Weitzner calls artful intelligence a philosophy that celebrates our humanness and can help each of us make better decisions and create a healthier relationship with the world around us In these pages the author walks us through how AI often fails and how that affects our lives But readers will also meet the rockstars inventors and business leaders who embody artful intelligence and are changing our world for the better in an era rampant with AI malpractice while being taught how to do the same **Industry Week** ,1920 **Weekly Bulletin** New York (N.Y.).
