Emerging Trends and Innovation in Business and Finance Rim El Khoury, Nohade Nasrallah, 2023-10-28 This book explores diverse dimensions of innovation in business and finance from a micro as well as macro perspective through various case studies and analyses of trends The previous decade is known as the era of digital transformation and innovation The rise of new technologies is having an impact on the global trends and leading to innovation in business and finance In this competitive market businesses and financial institutions must be responsive to the trends in order to survive and thrive governments must cope with the complex and uncertain environments by being smart transforming service delivery and implementing smart governance practices and entrepreneurs and investors are faced with alternative sources of finance and investment However keeping up with these trends and innovations is fraught with its own set of challenges Thus it is important to analyze new and emerging technologies and innovations through a myriad of disciplinary lenses This book not only expands conceptual understanding of digital transformation and innovation by presenting strong empirical evidence but also by adding to the vigorous worldwide policy discussion on how to assist businesses in the digital transition The book will be useful to scholars and researchers of business management financial management business economics international business human resources and marketing It will also be of interest to entrepreneurs policymakers academicians and practitioners in the field

Interdisciplinary Assessment of Personal Health Monitoring S. Schmidt, O. Rienhoff, 2013-07-17 Europe is facing a paradox while governments try to curb public spending the demands on our healthcare systems continue to rise The use of smart technologies and innovation can help to address the challenges faced by healthcare systems today such as an ageing population a shortage of healthcare professionals and restrictions on financial resources But despite increasing evidence of the benefits technology can bring the healthcare sector has been slow to embrace the digital revolution and has stuck to more traditional methods and models This book presents selected contributions to the symposium on Personal Health Monitoring PHM and Ethics and future areas of PHM which took place in advance of the 11th World Congress of Bioethics held in Rotterdam the Netherlands in June 2012 Most of the papers present the outcomes of the European PHM Ethics project which conducted interdisciplinary analyses of emerging PHM applications Additional invited contributions deal with important issues related to the project's primary objectives and outcomes The project is strongly associated with the new e Health Action Plan launched by the European Commission in December 2012 which is designed to bring the benefits of digital solutions into healthcare systems The book covers a broad spectrum ranging

from the technical setup of PHM systems to ethical issues raised by PHM applications and will be of interest to all those concerned with improving the provision of healthcare worldwide
