Handbook of Research on Digital Transformation and Challenges to Data Security and Privacy Anunciação, Pedro Fernandes,Pessoa, Cláudio Roberto Magalhães,Jamil, George

Leal,2021-02-19 Heavily dominated by the sector of information and communication technologies economic organizations pursue digital transformation as a differentiating factor and source of competitive advantage Understanding the challenges of digital transformation is critical to managers to ensure business sustainability However there are some problems such as architecture security and reliability among others that bring with them the need for studies and investments in this area to

avoid significant financial losses Digital transformation encompasses and challenges many areas such as business models organizational structures human privacy management and more creating a need to investigate the challenges associated with it to create a roadmap for this new digital transformation era The Handbook of Research on Digital Transformation and Challenges to Data Security and Privacy presents the main challenges of digital transformation and the threats it poses to information security and privacy as well as models that can contribute to solving these challenges in economic organizations While highlighting topics such as information systems digital trends and information governance this book is ideally intended for managers data analysts cybersecurity professionals IT specialists practitioners researchers academicians and students working in fields that include digital transformation information management information security information system reliability business continuity and data protection

[Wolt Cooperation Strategy with its Couriers before and after the Covid 19 Pandemic](#) Ekundayo Bello,2024-05-15 Master s Thesis from the year 2024 in the subject Business economics Business

Management Corporate Governance grade 2 course Master in International Business language English abstract The objective of this study is to provide recommendations on how to improve the cooperation between Wolt and its courier partners during and after the Covid 19 crisis based on the views and opinions expressed by the courier partners in Tallinn The views and opinions of Wolt s courier partners on actions and strategies implemented by Wolt during the pandemic and preferred relationship status will be used to make suggestions on how to improve the cooperation between the two parties According to Statista an online database food delivery platforms along with other service sector businesses in Estonia contributed significantly to GDP over 61% from 2009 to 2019 Moreover the global turnover of 151 526 million in 2021 was forecast in the sector Online Food Delivery with China expected to generate the highest turnover and the estimated turnover for Estonia in 2021 is 20 million Statista 2020 1 Wolt one of the largest e residency companies in Estonia contributes significantly to the Estonian economy by paying social contributions on behalf of its individual courier partners and paying business courier partners a higher commission to compensate for their tax expenses By the last quarter of 2020 Wolt has paid up to EUR 300 000 in taxes for its courier partners in Estonia Therefore the continued survival and profitability of online food delivery platforms in Estonia is important for the well being of citizens As the hardship caused by the pandemic continues to transform almost all aspects of human life worldwide the role of online food delivery companies in providing consumers with prepared food cannot be overstated
