**My Name's Not Robbie Any More** Lea Hope Becker,2014-10-24 Marlene Sternberg s 42 year old bachelor son Robbie who lives and works hundreds of miles away fails to call her on her 70th birthday Several days later she gets a mysterious package from him and before she can open it he phones and drops a bombshell He s no longer her son he s had a sex change operation and he s now her daughter Marlene realizes that her husband Henry although a devoted father is also a conservative old fashioned guy who will be out of his mind when he gets the news Why did Robbie have to keep his surgery secret until after the fact Why was Marlene s younger child 37 year old daughter Linda instrumental in financing the operation Suddenly Marlene s everyday obsessions take a back seat to the new family dynamics No longer is her biggest problem her thirty pounds of excess weight or even the fact that tightwad Henry won t pay for the facelift she desires Will Henry try to close the door on his relationship with Robbie What should Marlene advise her new transgendered daughter to do about Robbie s earlier commitment to stand up as a groomsman for wealthy cousin Cissy s imminent lavish wedding since none of the extended family knows about the operation As the weeks pass Marlene sees the possibility that the harrowing upset to the family relationships can be normalized if only Henry is given time to adjust Will her maternal instincts and love for her two children overcome all the new obstacles facing her Lea Becker s treatment of a sensitive subject is written with empathy and humor This fictional tale about a family with a dilemma is a story that could be true and could be playing out right now in your neighborhood or your own home    **The Works of Robert Burns** Robert Burns,James Currie,1830

**Illustrated London News** ,1870    [The Voynich Manuscript as an Example of Oligo-Agglutinative Pasigraphy, Vol. I: A Fuzzy Set Approach to Decryption](#) Steve Bolton, Class III problems are considered practically unsolvable in cryptology but none has resisted cryptanalytic attack as persistently as the Voynich Manuscript In the first installment of this 4 volume set we present the linguistic and affix analysis that preceded the first complete but approximate translation of the entire manuscript This contrasts with the piecemeal approach of all prior solutions that resulted in wildly divergent translations of minuscule selections of the text This systemic attack on the entirety of the text and its unusual distributional features such as extreme platykurtia which forbid translation into any natural language resulted first in superior transcription stability and an equally stable symbol set based on intensive statistical analysis The encoding scheme employs a 20 22 letter alphabetic script

that most closely resembles a slot and filler top down a priori pasigraphic system with oligo agglutinative features that are currently only considered a theoretical possibility in the linguistics field The intricate affixing system is based mainly on precise placement of single letters to denote case roles semantic classes and 3 primary parts of speech exhibiting a strong noun surfeit At the phrase level we find dominant SOV order and head final dependent marked grammar compatible with heavily formatted inline pharmaceutical lists these result in short ranges of actionable information which no competing solution can claim Plant descriptions are demoted in comparison to other herbals in favor of processing and dispensing details This approximate solution is based on fuzzy set analysis techniques integrated with linguistic universals a wide range of common statistics Pareto and Sukhotin scores Zipf slopes Indexes of Coincidence Agglutination and Synthesis and dozens of others and many home brewed fuzzy algorithms implemented in T SQL and VB Net after the inadequacy of many advanced data mining techniques was demonstrated Our methodology was validated when the project reached an inflection point beyond which we were able to predict the identities and properties of plants based on the text alone The project ended with plausible identification candidates for 121 of 126 herbal section plants and 7 others elsewhere in the manuscript far beyond that of other published solutions An incredible 100% of the 133 identified plants have dermatological uses These can be divided into prominent subtopics like treatment of bites anthelmintics rheumatism and other musculo skeletal ailments inflammatory skin disorders external and possibly menstrual bleeding excision of blemishes application of cosmetics and cures dispensable in baths The centerpiece of the manuscript is the Rosette Folio which depicts the grand design of a medieval bathhouse keyed to specific astrological timings also defined by satellite diagrams following a precedence hierarchy Each of these uses exhibit telltale polygraph correlations that fall into a handful of semantic hierarchies constructed from highly similar bases such as skin color based diagnostic criteria remedies solutions problems diseases plant parts and the like These findings require 2 volumes to demonstrate and another volume of data and other supplementary material Despite this complexity they culminate in a drastic simplification of the script and the first ever comprehensive translation of the Voynich Manuscript in Volume IV albeit at low resolution
