## **My True Course Dutch Van Kirk Northumberland To Hiroshima:**

**My True Course** Suza Simon Dietz, 2016-01-31 On an early August morning in 1945 a Boeing Silverplate B 29 Superfortress took off from the Tinian airfield amidst an unpublicized Hollywood like atmosphere for the first atomic strike mission in the history of civilization The young captain made his first notation Time Takeoff 0245 as he again performed his duties to keep the pilot on course across the vast expanse of the Pacific Ocean So began Special Mission No 13 with hopes to bring an end to the devastation and killing of millions that occurred during World War II The aerial navigator s name was Theodore Jerome Van Kirk a self described Huck Finn Susquehanna river rat from Northumberland Pennsylvania Certain of America s entry into the war twenty year old Van Kirk entered the Army Air Corps in September 1941 with aspirations of being a pilot Correspondence to and from home paint a portrait of hometown America the experiences of an Air Cadet the war nerves of a mother and tales from the greatest generation Van Kirk charts his course across four continents and airfields around the world After fifty eight missions risking life and limb aboard B 17s he believes the war is over for him But the plans for the top secret mission and Van Kirk s yes to a call from his former commander Paul Tibbets sets him on a journey to again accept the possibility of the ultimate sacrifice Van Kirk served on the flying Fortresses during the early heavy bombing raids of German occupied Europe the start of Operation Torch with General Eisenhower attacks by enemy aircraft tent living in the mountain regions of North Africa and the unknown impact of the blast from the first uranium bomb My True Course through Dutch s letters home and memories of the exploits of his own Band of Brothers are a testament to the sixteen million at arms who fought and served to bring an end to the Second World War Atomic Bomb Island Don A. Farrell, 2021-01-15 Atomic Bomb Island tells the story of an elite top secret team of sailors airmen scientists technicians and engineers who came to Tinian in the Marianas in the middle of 1945 to prepare the island for delivery of the atomic bombs then being developed in New Mexico to finalize the designs of the bombs themselves and to launch the missions that would unleash hell on Japan Almost exactly a year before the atomic bombs were dropped strategically important Tinian was captured by Marines because it was only 1 500 miles from Japan and its terrain afforded ideal runways from which the new B 29 bombers could pound Japan In the months that followed the U S turned virtually all of Tinian into a giant airbase with streets named after those of Manhattan Island a Marianas city where the bombs could be assembled the heavily laden B 29s could be launched and the Manhattan Project scientists could do their last work Don Farrell has done this story incredible justice for the 75th anniversary The book is a thoroughly researched beautifully illustrated mosaic of the final phase of the Manhattan Project from the Battle of Tinian and the USS Indianapolis to Hiroshima and Nagasaki *Nagasaki* M. G. Sheftall, 2025-08-05 The second volume in a prize worthy two book series based on years of irreplicable personal interviews with survivors about each of the atomic bomb drops first in Hiroshima and then Nagasaki that hastened the end of the Pacific War On August 6 1945 the United States unleashed a weapon unlike anything the world had ever seen Then just three days later when Japan

showed no sign of surrender the United States took aim at Nagasaki Rendered in harrowing detail this historical narrative is the second and final volume in M G Sheftall s series Embers Sheftall has spent years personally interviewing hibakusha the Japanese word for atomic bomb survivors These last living witnesses are a vanishing memory resource the only people who can still provide us with reliable and detailed testimony about life in their cities before the use of nuclear weaponry The result is an intimate firsthand account of life in Nagasaki and the story of incomprehensible devastation and resilience in the aftermath of the second atomic bomb drop This blow by blow account takes us from the city streets as word of the attack on Hiroshima reaches civilians to the cockpit of Bockscar when Charles Sweeney dropped Fat Man to the interminable six days while the world waited to see if Japan would surrender to the Allies or if more bombs would fall

**Truman and the Bomb** D. M. Giangreco, 2023-08 Many myths have grown up around President Harry S Truman s decision to use nuclear weapons against Imperial Japan In destroying these myths Truman and the Bomb will discomfort both Truman s critics and his supporters and force historians to reexamine what they think they know about the end of the Pacific War Myth Truman didn t know of the atomic bomb s development before he became president Fact Truman s knowledge of the bomb is revealed in his own carefully worded letters to a Senate colleague and specifically discussed in the correspondence between the army officers assigned to his Senate investigating committee Myth The huge casualty estimates cited by Truman and Secretary of War Henry Stimson were a postwar creation devised to hide their guilt for killing thousands of defenseless civilians Fact The flagrantly misrepresented low numbers are based on narrow slices of highly qualified and limited U S Army projections printed in a variety of briefing documents and are not from the actual invasion planning against Japan Myth Truman wanted to defeat Japan without any assistance from the Soviet Union and to freeze the USSR out of the postwar settlements Fact President Franklin D Roosevelt and President Truman desperately wanted Stalin s involvement in the bloody endgame of World War II and worked diligently and successfully toward that end Using previously unpublished material D M Giangreco busts these myths and more An award winning historian and expert on Truman Giangreco is perfectly situated to debunk the many deep rooted falsehoods about the roles played by American Soviet and Japanese leaders during the end of the World War II in the Pacific Truman and the Bomb a concise yet comprehensive study of Truman s decision to use the atomic bomb will prove to be a classic for studying presidential politics and influence on atomic warfare and its military and diplomatic components Making this book particularly valuable for professors and students as well as for military diplomatic and presidential historians and history buffs are extensive primary source materials including the planned U S naval and air operations in support of the Soviet invasion of Manchuria These documents support Giangreco s arguments while enabling the reader to enter the mindsets of Truman and his administration as well as the war s key Allied participants
